

TRANSPARENT AND RESPONSIBLE SAVINGS

Cortal Consors rating
Information on the environmental footprint and jobs created by funds

The Green Rating, symbolised by a number of planets (from 1 to 5), measures the greenhouse gas emissions generated by businesses in which the funds analysed are invested, i.e. their carbon footprint.

The Employment Rating, symbolised by characters, measures the change in the headcount of businesses in which the funds analysed are invested weighted by their market capitalisation.

EUR 491.7
BILLION

**BNP
Paribas
savings
products**

BNP Paribas customers enjoy a guarantee that, whatever product they choose, the most dangerous products are excluded from the investment scope, and investments in sensitive sectors are closely monitored.

EUR 80
BILLION

**Euro-
denominated
life insurance
funds**

For life insurance policyholders, the proportion invested in the euro fund takes into account the extra-financial performance of the underlying businesses.

EUR 15.1
BILLION

**SRI
funds**
