Pricing					
MSRP	FREE	$179.00	$279.00	$3,299.00	$3,799.00

(1) unlimited number of computers belonging to the same company (licensee)

(2) proof of concept and testing/evaluation is also allowed, as long as the product is not deployed in a production environment

Note regarding the paid licenses: all licenses are perpetual, therefore they allow the use of the software for an unlimited amount of time. However, the initial purchase price includes 1 year "support plan" (all updates and upgrades, 24/7 email support, and access to our dedicated issue tracking system). Should you wish the renew such "support plan" after the first year, the subscription price is 20% of the original purchase price (and it is optional).
