

WHAT'S NEW IN PDF VIEWER 3.2

Apple Pencil Actions

Annotate faster using a convenient double-tap on Apple Pencil with the new iPad Pro models. Set your preference in the Settings app to either switch to the eraser, switch to the previous tool, or show the inspector.

WHAT'S NEW IN PDF VIEWER 3.2

Free-Form Redaction

Securely and irrecoverably remove sensitive content from your documents. You can now redact content other than text. This includes images, graphics, annotations, and form fields.

WHAT'S NEW IN PDF VIEWER 3.2

Sync Conflict Detection

To avoid losing work, PDF Viewer now asks what to do when an open document is modified on another device. You can keep either version.
