

Roboto Slab

4 styles – OTF TT – v1.100263 – [Google Fonts](#)

Windows: Font Family is Roboto Slab for all fonts. Weights are all in Font Subfamily, not separate families.

Thin font is not available anywhere. Light font only appears in the Character Style list.

Typographic Family and Subfamily are filled-in. Export to PDF - fonts are correct (but obviously missing Thin).

Mac:

Linux:

Roboto Slab Thin	250 (NOT AVAILABLE)
Roboto Slab Light	300 (from Styles list)
Roboto Slab Regular	400 (from Font list)
Roboto Slab Bold	700 (from Font list) (Regular+Bold)

Roboto Slab LO

4 styles – OTF TT – v2.000 alpha – Modified by LibreTraining- fonts-are-included with this guide.

Windows: All appears to display and print properly. Export to PDF - all fonts are correct.

Mac:

Linux:

Roboto Slab LO Thin	250 (from Font list)
Roboto Slab LO Light	300 (from Font list)
Roboto Slab LO Regular	400 (from Font list)
Roboto Slab LO Bold	700 (from Font list) (Regular+Bold)
