

This is a document to demonstrate the tooltip behaviour in Word when exported to PDF.<sup>1</sup>

---

<sup>1</sup> In Word (created with Google Docs, since I don't have a paid copy of Word at my disposal [I use LibreOffice, after all...]), hovering over a footnote marker does not pop up a tooltip...

Hovering over the footnote marker on the second page shows “Go to page 2” in the tooltip.<sup>2</sup>

---

<sup>2</sup> Not even on the second page...
