

Table in HSQLDB shows times and temperatures

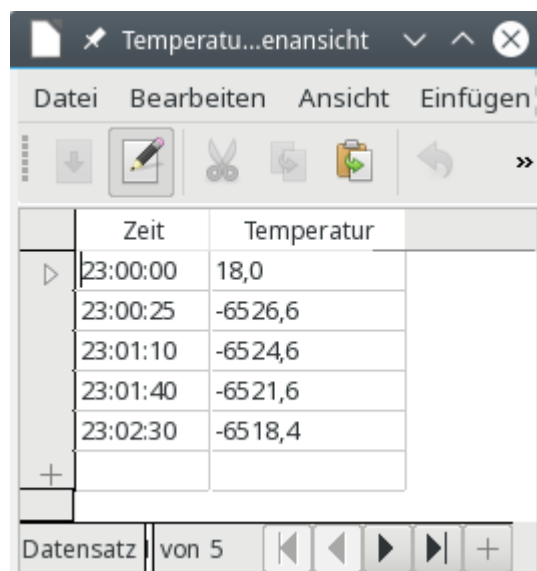

The screenshot shows a window titled 'Temperatu...enansicht' with a menu bar (Datei, Bearbeiten, Ansicht, Einfügen) and a toolbar. The table has two columns: 'Zeit' and 'Temperatur'. The data rows are as follows:

| | Zeit | Temperatur |
|---|----------|------------|
| ▷ | 00:00:00 | 18,0 |
| | 00:00:25 | 27,0 |
| | 00:01:10 | 29,0 |
| | 00:01:40 | 32,0 |
| | 00:02:30 | 35,2 |
| + | | |

At the bottom, it shows 'Datensatz | von 5' and navigation buttons.

Migrated table in Firebird: Times with known problem, temperatures unusable. Field is defined as DECIMAL(4,1)

The screenshot shows a window titled 'Temperatu...enansicht' with a menu bar (Datei, Bearbeiten, Ansicht, Einfügen) and a toolbar. The table has two columns: 'Zeit' and 'Temperatur'. The data rows are as follows:

| | Zeit | Temperatur |
|---|----------|------------|
| ▷ | 23:00:00 | 18,0 |
| | 23:00:25 | -6526,6 |
| | 23:01:10 | -6524,6 |
| | 23:01:40 | -6521,6 |
| | 23:02:30 | -6518,4 |
| + | | |

At the bottom, it shows 'Datensatz | von 5' and navigation buttons.
