To whom it may concern

Re: Mr Squiggle, the man from the moon.

Mr. Squiggle, the central character is a marionette with a pencil for a nose, who visits his friends from his home at 93 Crater Crescent on the Moon, flying to Earth in his pet rocket (named Rocket). In every episode he would create several pictures from "squiggles" sent in by children from around the country. Mr. Squiggle is a cheery, gentle and good-natured yet scatter-brained character who is often distracted and occasionally goes for "space-walks", leading his assistant to calm him down and get him to focus on the task of drawing.

Yours faithfully,

Mr Squiggle
