MS word and numbering tabstops.
- ✖ (4cm) Stop at a default tabstop first. (every 4 cm)
- • (3cm) Stop at IndentAt if default tabstops
- • (8cm) ignore IndentAt with specified tabstops

True for .doc and .rtf
True for Word 2003 and docx
Not-true for Word 2016 and docx. (IndentAt always stopped at.)

Complicated tests.
- o (2cm) too-short numbering tabstop with defaults.
- o.. (8cm) too-short, with specified tabstop.
- • A   nasty   test   to make, so don't really worry about this unlikely situation cropping up.
