A table set "keep with next" should not split, but instead move to a new page IF there is no room for both the table AND for the following paragraph on the current page AND the table is not kept with the previous paragraph UNLESS the table and following paragraph are too large for one page.

1. Single page – all fits.

2. Same page, split table – previous paragraph keep.

3. Start new page – fits one page,

4. Same page, split table – orphan too small.

5. Same page, split table – spans multiple pages.

6. Start new page – multipage table, but orphan too small.

The format used for this test is highlighted above.

Paragraph before the table.

Table Heading	**Cell Heading**	
Row 1	Cell 1	
Row 2	Cell 2	
Row 3	Cell 3	
Row 4	Cell 4	
Row 5	Split	Cell
Row 6	Table	in
Row 7	table	
Row 8	With merged cells	
Leave last row	blank	

The table is set to keep with this paragraph. So at least the orphan number of lines should be on the same page as the table.

A table set "keep with next" should not split, but instead move to a new page IF there is no room for both the table AND for the following paragraph on the current page AND the table is not kept with the previous paragraph UNLESS the table and following paragraph are too large for one page.

1. Single page – all fits.

2. ==Same page, split table – previous paragraph's keep set.==

3. Start new page – fits one page,

4. Same page, split table – orphan too small.

5. Same page, split table – spans multiple pages.

6. Start new page – multipage table, but orphan too small.

The format used for this test is highlighted above.

Paragraph before the table. Setting this paragraph to "keep with next". The table should split so that it keeps with this paragraph.

Table Heading	Cell Heading	
Row 1	Cell 1	
Row 2	Cell 2	
Row 3	Cell 3	
Row 4	Cell 4	
Row 5	Split	Cell
Row 6	Table	in
Row 7	table	
Row 8	With merged cells	
Row 9	Cell x	
Row 10	Cell y	
Row 11	Cell z	
Row 12	Cell Alpha	
Row 13	Cell Beta	
Leave last row	blank	

The table is set to keep with this paragraph. So at least the orphan number of lines should be on the same page as the table.

A table set "keep with next" should not split, but instead move to a new page IF there is no room for both the table AND for the following paragraph on the current page AND the table is not kept with the previous paragraph UNLESS the table and following paragraph are too large for one page.

1. Single page – all fits.

2. <mark>Same page, split table – previous paragraph's keep set.</mark>

3. Start new page – fits one page,

4. Same page, split table – orphan too small.

5. Same page, split table – spans multiple pages.

6. Start new page – multipage table, but orphan too small.

The format used for this test is highlighted above.

Paragraph before the table.

Setting this paragraph to "keep with next". The 2 paragraphs and table should move as a group to new page.

Table Heading	Cell Heading	
Row 1	Cell 1	
Row 2	Cell 2	
Row 3	Cell 3	
Row 4	Cell 4	
Row 5	Split	Cell
Row 6	Table	in
Row 7	table	
Row 8	With merged cells	
Row 9	Cell x	
Leave last row	blank	

The table is set to keep with this paragraph. So at least the orphan

number of lines should be on the
same page as the table.

A table set "keep with next" should not split, but instead move to a new page IF there is no room for both the table AND for the following paragraph on the current page AND the table is not kept with the previous paragraph UNLESS the table and following paragraph are too large for one page.

1. Single page – all fits.

2. Same page, split table – previous paragraph keep.

3. Start new page – fits one page,

4. Same page, split table – orphan too small.

5. Same page, split table – spans multiple pages.

6. Start new page – multipage table, but orphan too small.

The format used for this test is highlighted above.

Paragraph before the table.

Table Heading	**Cell Heading**	
Row 1	Cell 1	
Row 2	Cell 2	
Row 3	Cell 3	
Row 4	Cell 4	
Row 5	Split	Cell
Row 6	Table	in
Row 7	table	
Row 8	With merged cells	
Row 9	Cell x	
Row 10	Cell y	
Row 11	Cell z	
Row 12	Cell Alpha	
Row 13	Cell Beta	
Leave last row	blank	

The table is set to keep with this paragraph. So at least the orphan number of lines should be on the same page as the table.

A table set "keep with next" should not split, but instead move to a new page IF there is no room for both the table AND for the following paragraph on the current page AND the table is not kept with the previous paragraph UNLESS the table and following paragraph are too large for one page.

1. Single page – all fits.

2. Same page, split table – previous paragraph keep.

3. Start new page – fits one page.

4. Same page, split table – orphan too small.

5. Same page, split table – spans multiple pages.

6. Start new page – multipage table, but orphan too small.

The format used for this test is highlighted above.

Paragraph before the table.

Table Heading	Cell Heading	
Row 1	Cell 1	
Row 2	Cell 2	
Row 3	Cell 3	
Row 4	Cell 4	
Row 5	Split	Cell
Row 6	Table	in
Row 7	Table	
Row 8	With merged cells	
Row 9	Cell x	
Row 10	Cell y	
Row 11	Cell z	
Row 12	Cell Alpha	
Row 13	Cell Beta	
Leave last row	blank	

The table is set to keep with this paragraph. So at least the orphan number of lines should be on the same page as the table.

A table set "keep with next" should not split, but instead move to a new page IF there is no room for both the table AND for the following paragraph on the current page AND the table is not kept with the previous paragraph UNLESS the table and following paragraph are too large for one page.
