In the Report-Builder you have to start the Report-Navigator to edit the general properties of a group, here the group "Name\_ID". In this properties "Reset page number" is set to "Yes". This means, that the page number should start every time with "1" when a new group begins. The number of pages has to show, how many pages are in a group.

And now have a look at the group, beginning with Name\_ID 2. Page Number is 3, all pages of the report are 6. There isn't any restart and separat counting of one group.

Name_ID	1
Date	29.07.12
Number	5
UnitPrice	2,35
Date	27.07.12
Number	12
UnitPrice	2,35
Date	27.07.12
