Date isn't printed, because it's also 25.07.12

Numbers aren't printed, because they are also 6

UnitPrices aren't printed, because they are also 12.36

You could get the right behavior, when you don't chose only „Do not print repeated values", but also „Do not print hen group change"
-don't know why. But this report could only be executed, when you edit the report. It isn't saved in the report.
