

The interface shows the LibreOffice Writer application. At the top is a toolbar with icons for file operations (new, open, save, print), editing (undo, redo, cut, copy, paste), and formatting (bold, italic, underline). Below the toolbar is a status bar showing 'Page 1 / 1', '0 words, 0 characters', 'Default Style', and 'English (USA)'. On the left side, there is a sidebar with icons for various applications: Dash, Home Folder, Places, Firefox, LibreOffice Writer, LibreOffice Calc, LibreOffice Impress, Amazon, and System Settings.

i can't use this button, and
i can't add to menu bar.

The 'Styles and Formatting' menu is open, displaying a list of options. The options are categorized into font settings (Font Name, Font Size, Bold, Italic, Underline, Superscript, Subscript), paragraph alignment (Align Left, Centered, Align Right, Justified), line spacing (Line Spacing: 1, Line Spacing: 1.5, Line Spacing: 2), text formatting (Numbering On/Off, Bullets On/Off, Decrease Indent, Increase Indent, Increase Font, Reduce Font), and background settings (Font Color, Highlighting, Background Color). The 'Left-To-Right' and 'Right-To-Left' options are highlighted with a red box.

The 'Background Color' submenu is open, showing a list of options. The options include 'Background Color', 'Superscript', 'Subscript', 'Left-To-Right', 'Right-To-Left', 'Line Spacing: 1', 'Line Spacing: 1.5', 'Line Spacing: 2', 'Increase Font', 'Reduce Font', 'Select All', 'Character', 'Paragraph', 'Visible Buttons', 'Customize Toolbar...', 'Dock Toolbar', 'Dock All Toolbars', 'Lock Toolbar Position', and 'Close Toolbar'. The 'Visible Buttons' option is highlighted with an orange bar.
