

Presentation from attachment 116864, slide 2.

On Windows 10 with standard scaling 100% - correctly presented:

(The black space to the sides are due to the 4:3 format being presented on a 16:9 monitor – this works as expected).

New Windows setting: Screen settings changed from 100% to 150%. Important: Do a logout (and re-login) for the changes to fully take place *even if Windows display is changed instantly*. The new scaling works instantly in the Windows system, but *a logout is needed for the change to fully*

Errors: Both images (one with the text column, one with illustrations) appear enlarged, losing information to the right and the bottom.
