.dts	VLC media file (.dts)	VLC media player
.dv	VLC media file (.dv)	VLC media player
.dvr-ms	Microsoft Recorded TV Show	Windows Media Player
.dwx	XPS Document	XPS Viewer

Default works ok for other LO modules

But not for LO Writer. Locally the default designation seems to work despite the fact that the label here states "unknown." However the default designation does not seem to work right when it comes to communicating with Box Edit.
