over.
Individuals must be unambiguously identified; in addition to the full name, further attributes (such as place and date of birth or other applicable individual parameters) must be used to prevent individuals from being mistaken. If legal entities are named in the certificate or if legal entities are subscribers, the complete name and legal status as well as relevant register information must be verified.

Identification is carried out according to section 3.2.3.

The TSP defines the following verification methods: ...

Email Address Verification Procedures	<p>CSM CPS section 4.2.1: E-mail It must be possible to unambiguously assign the domain used in a registered e-mail address to the registered organisation. If this is not the case, the TSP sends an e-mail to the e-mail address to be confirmed, and receipt of this e-mail must be confirmed (exchange of secrets). The results of the inquiry are filed.</p> <p>CPS section 4.2.1: E-mail The TSP sends an e-mail to the e-mail address to be confirmed, and receipt of this e-mail must be confirmed (exchange of secrets). The results of the enquiry are filed.</p>	Verified?	Verified
