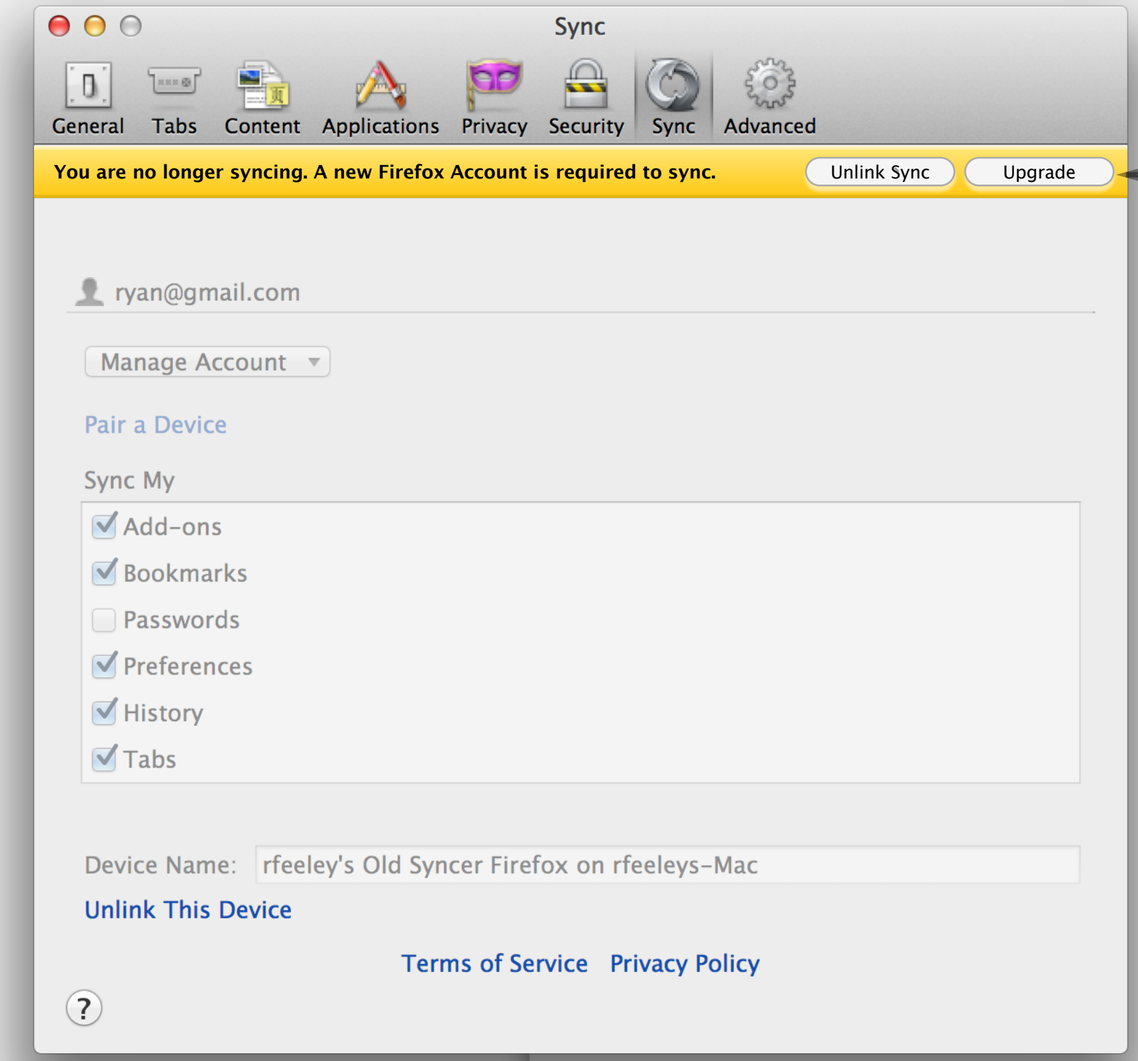
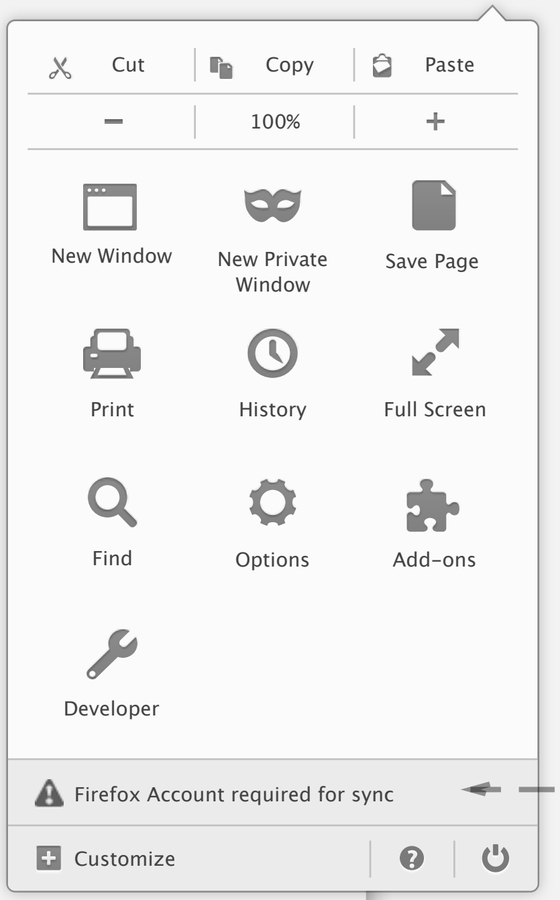
State: **Sync broken**

When the old Sync server starts has past its end of life.



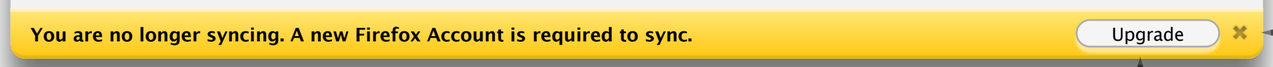
Opens Firefox Accounts Sync registration form with email address populated, preserving Sync datatype selections



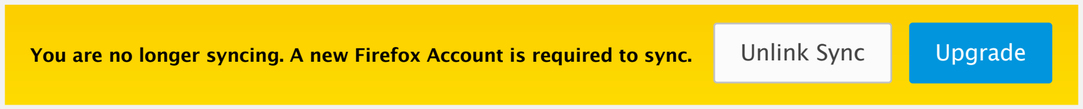
Sign in to Sync is the original label, but in the context of sync migration, it is not helpful. Instead, here we propose this which links to Sync preferences where more details are available.

Sync broken

Regular web page bottom notification



Dismiss until next session
Repeated dismissals could trigger **Unlink Old Sync** dialog

Update opens FxA registration with email address pre-populated, preserving Sync datatype selections.


In-content preferences inline notification (below Sync heading)
