

Summary

The Message Filters will work on any individual email folder but the Message Filters will not work on the “All Email” folder that consolidates all individual email account folders.

That’s results in having to create individual Message Filters in each individual email account folder to filter for the same criteria.

Example: If I want to filter all emails in all email accounts that contain OCTOBER in the subject, I would have to set up a filter in each of my four email account folders.

I should be able to set up one Message Filter on the All Emails” folder to do the same thing.

The screenshot shows an email client window titled "Notices - All Email". The interface includes a menu bar (File, Edit, View, Go, Message, Events and Tasks, Tools, Help) and a toolbar with buttons for "Get Messages", "Write", "Chat", "Address Book", "Tag", and "Quick Filter". The left sidebar displays a folder tree with accounts: "Near86", "LNear", "Kickapoo Lodge", and "Near". Under "Near86", there are folders for "Inbox (2)", "Drafts", "Sent", and "Trash". Under "LNear", there are folders for "Inbox (4)", "Drafts", "Sent", "Archives", and "Trash". Under "Near", there are folders for "All Email", "Inbox (6)", "Sent", "Trash", "Outbox", "Amazon", and "Notices (1)". The main pane shows a list of emails with columns for "Date", "From", "Subject", and "Account". The first email in the list has a subject of "OCTOBER" and is from "Near86".

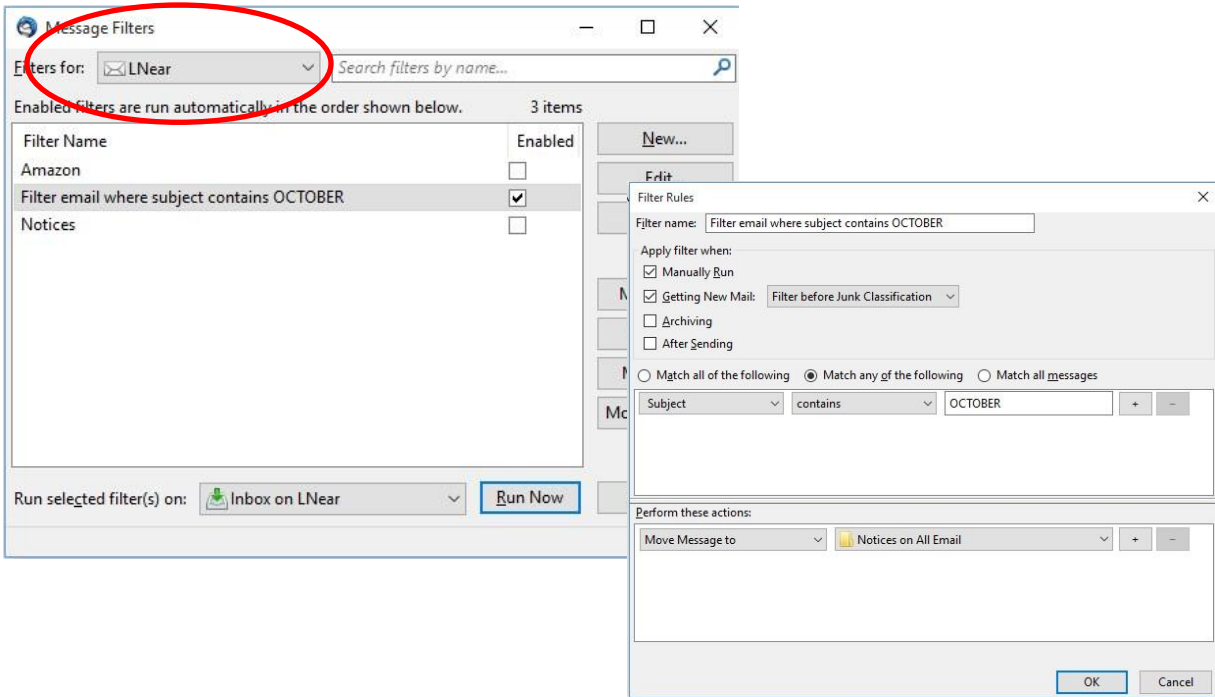

Date	From	Subject	Account
3:15 PM	Near86	OCTOBER	LNear
3:09 PM	Near86	OCTOBER	LNear
10/3/2015 6:11 AM	edelivery@netinvestor...	Brokerage Account Statement Notification	LNear
10/3/2015 2:13 AM	suntrustbillpay@custo...	Reminder: Automatic Payment to First Community Mortgage, Inc...	LNear
10/3/2015 2:11 AM	noreply@republicservi...	Your Republic Services Invoice is Now Available	Near86
10/2/2015 6:18 PM	onlineservices@kbs-c...	Your KBS account information is now available to view on-line	LNear
10/2/2015 11:27 AM	American Express	Account Alert: Your Account Snapshot	Near86

The Message Filter works perfectly on any of these four individual email accounts folders.

But the message filter will not work on this “All Email” folder

See next page for the Message Filter details.

This Filter is setup on my **LNear** Email Folder. Its works perfectly either by clicking on “Run Now” in the Message Filters window or by clicking on “Get Messages” in the main view.

This Filter is setup on my **All Email** Folder. This filter doesn't work either by clicking on “Run Now” in the Message Filters window or by clicking on “Get Messages” in the main view.
