DOWNLOAD PANEL

Download Flow on Toolbar

Start Download

Downloading

- 1. While downloading, show progress bar on download icon
- 2. Multiple files downloading, show overall progress

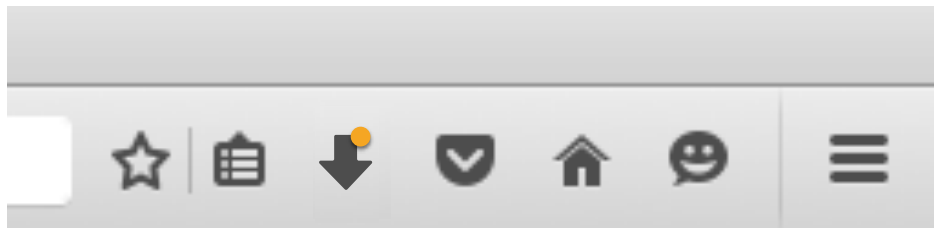

Download Complete

Once there is a download completed, show expanding/flashing transition to notify the user, and keep the progress bar running if there are more downloadings

Download Alert as Badges

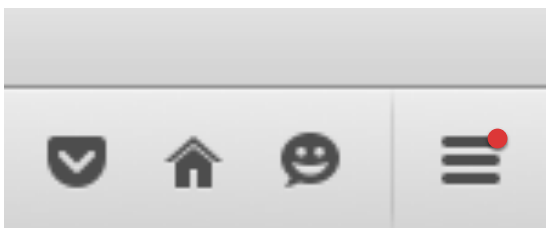

-  Successful Download
-  Malicious Download
-  Failed/Uncommon/Unwanted Download

Alert: Failed/ Malware/ Unwanted/ Uncommon

When a user downloads a file, the status of the download is show in the toolbar.

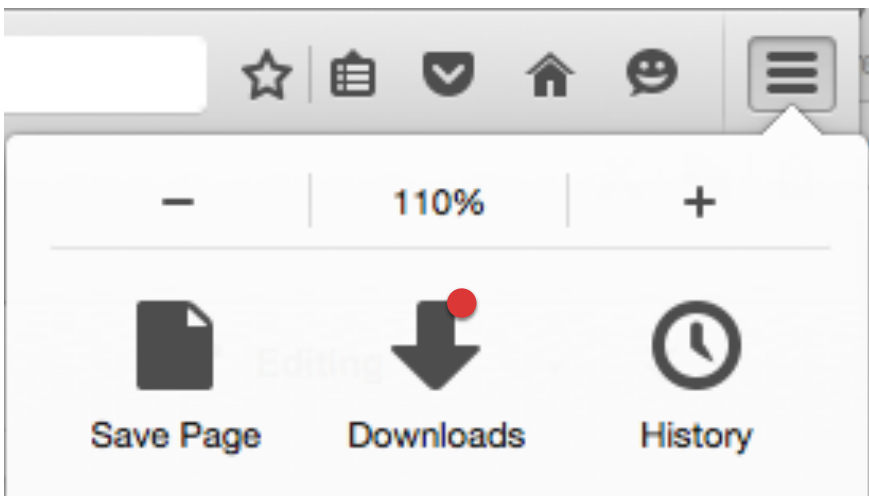

1. The alert badge will disappear when user click on it to find more detail

Download icon in the Menu Panel

If the download icon has been moved to the menu panel the badges appear on the menu icon.

If there is a browser update available at the same time, the download badging will supercede the update icon on the menu. Once the menu is opening, the badging can disappear after.

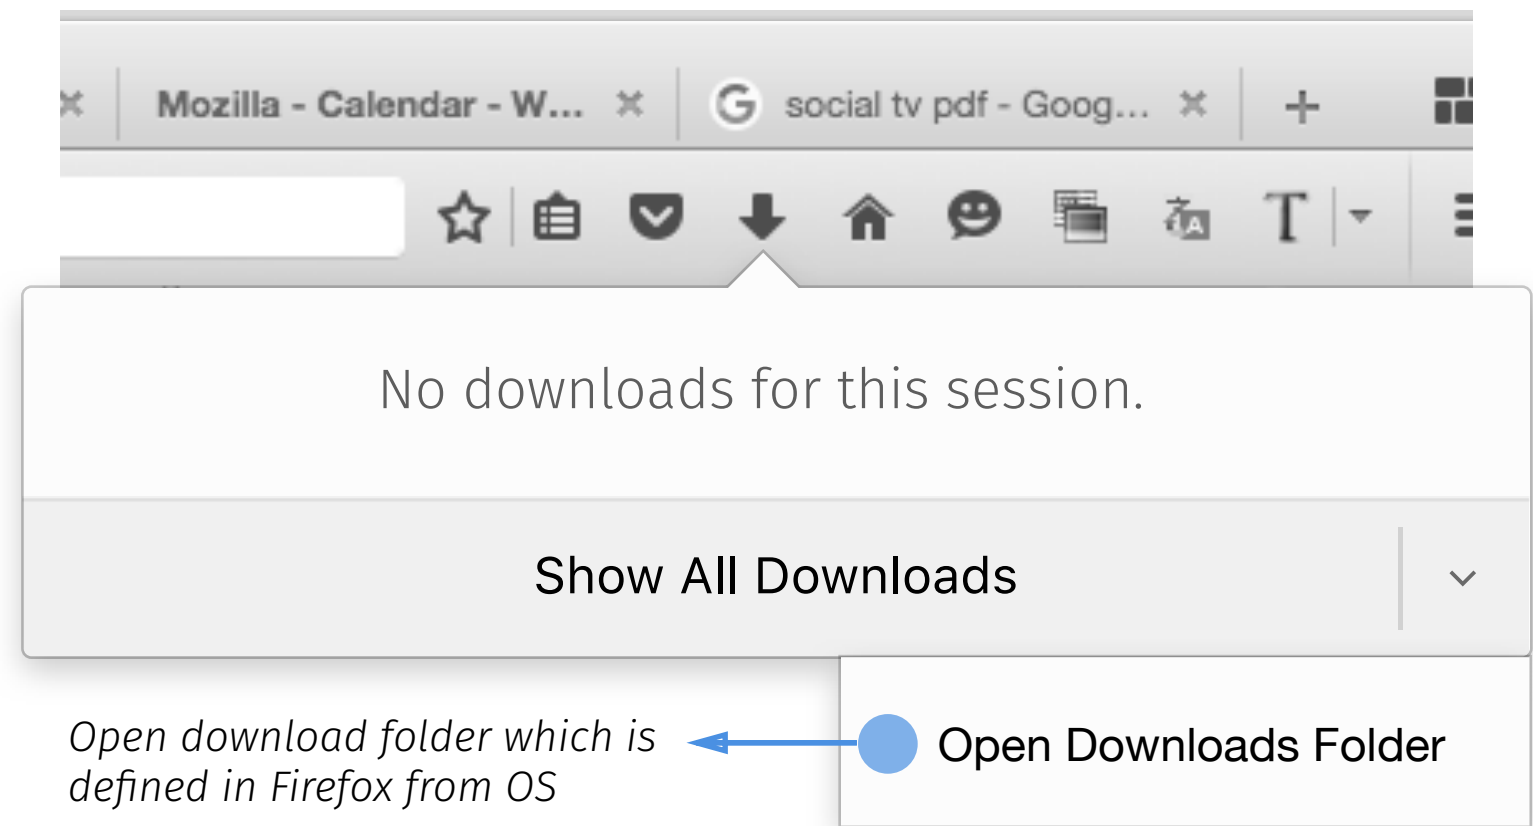

When Menu is open

If the Download button is moved into menu, When the menu is open, the badge can be seen on the download icon.

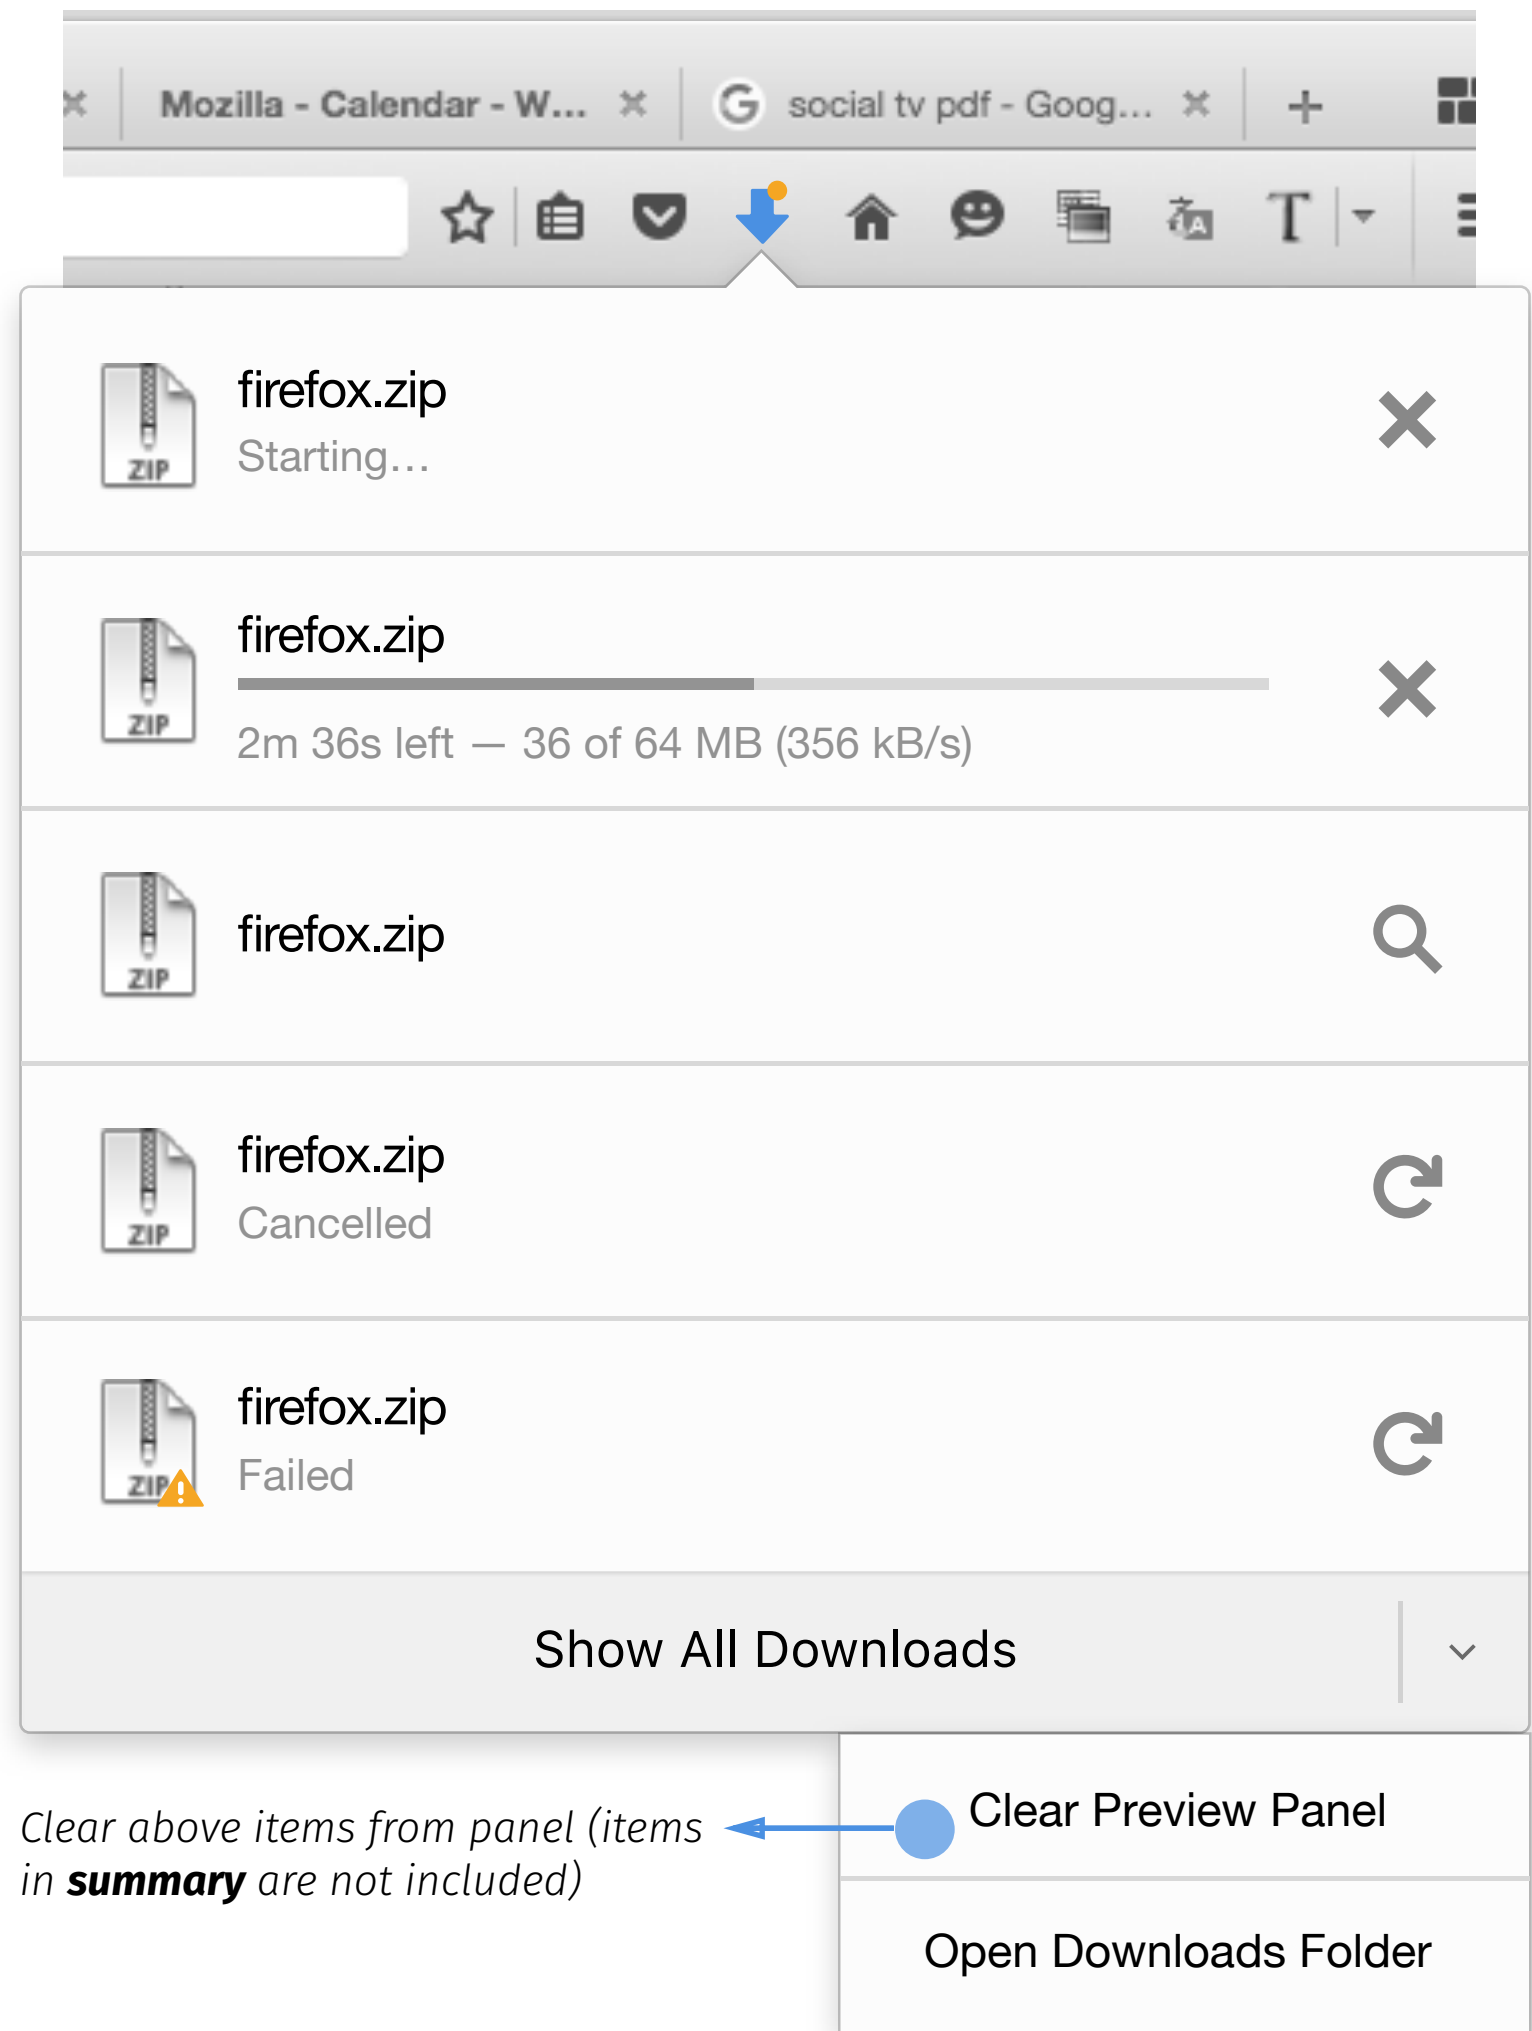

Download Icon on Toolbar

NOTE
5 is the max number of recent download items that can be displayed on the panel.

Click Download Icon

1. Show entire download panel
2. Hide if user click outside of the download panel

Download Multiple Files

NOTE

Multiple Alerts will follow the badge display rules that stated in previous page

Pause & Resume

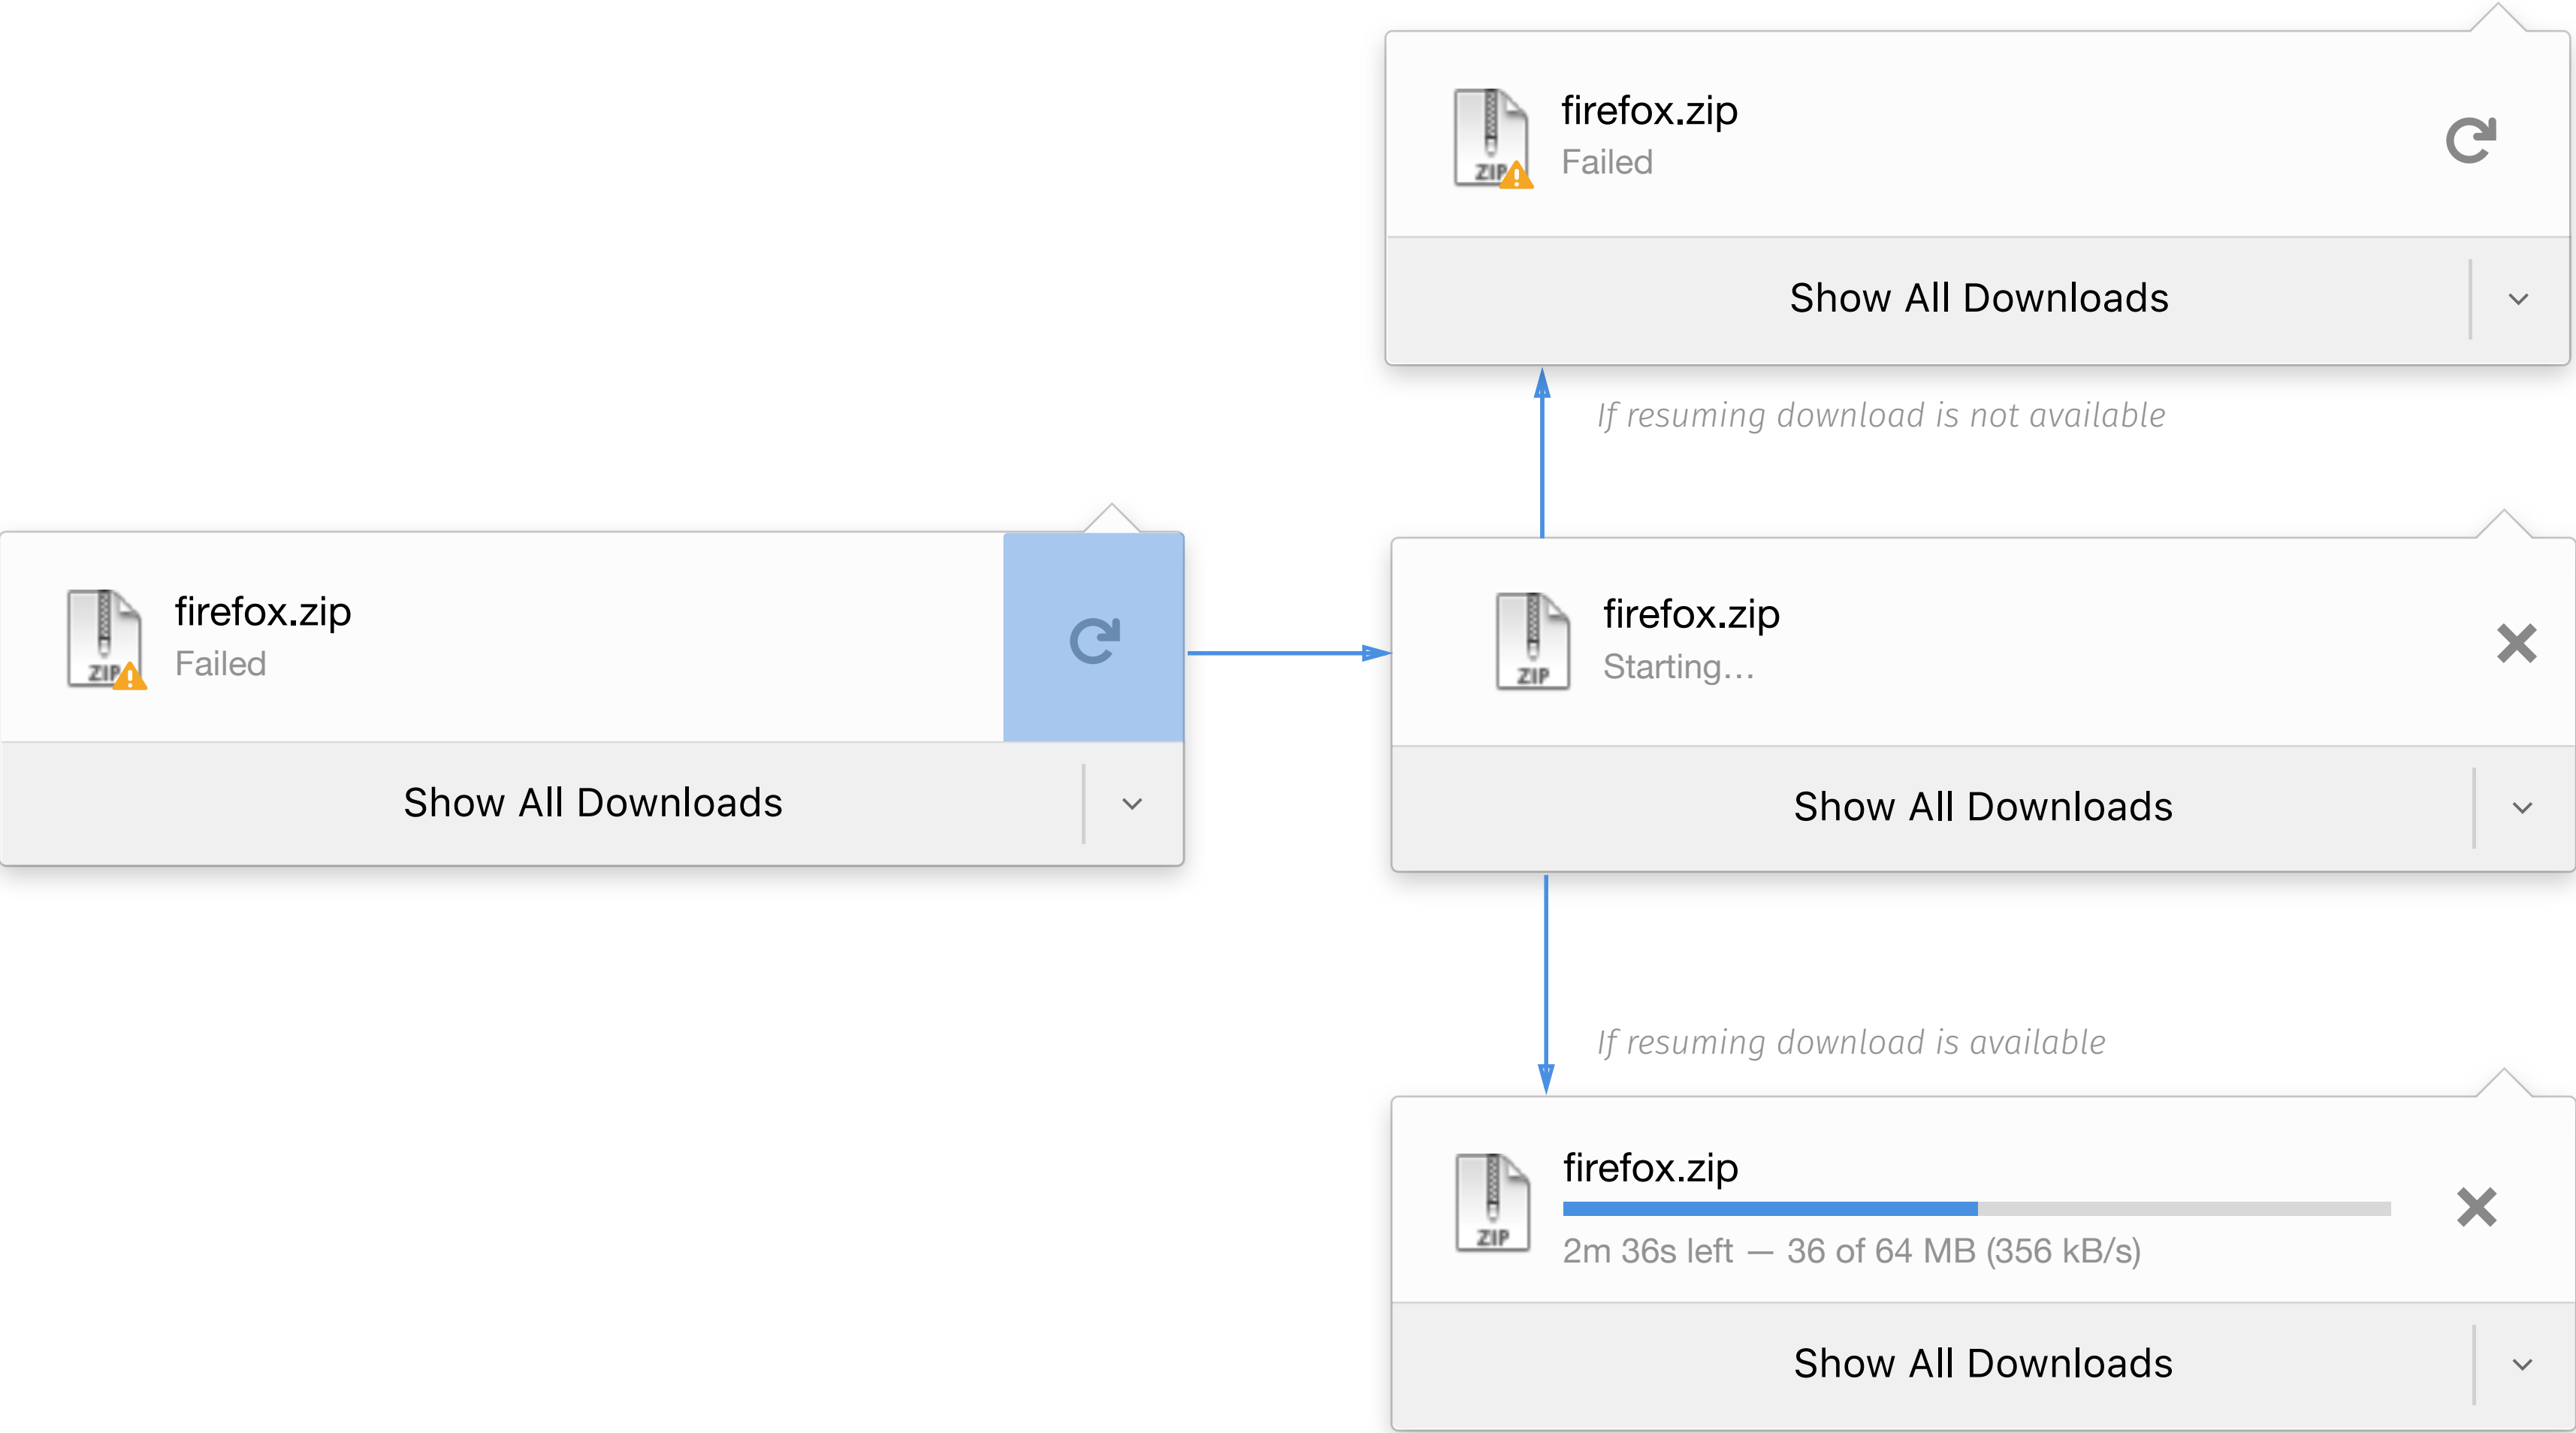

Note:

- The reason we allow users to pause a download:
1. More and more websites support to pause/ resume the download
 2. Website's capability of resuming the download is not the only reason to fail resuming. There are other reasons that can fail resuming, ex time-out.
 3. If fail, user can always restart the download.

Cancel & Restart
