

INDEPENDENT ASSURANCE REPORT

To the management of Asseco Data Systems S.A. ("ADS"):

Scope

We have been engaged, in a reasonable assurance engagement, to report on ADS management's assertion that for its Certification Authority (CA) operations at Szczecin, Poland, throughout the period April 15, 2017 to March 26, 2018 for its CAs as enumerated in Appendix A, ADS has:

- ▶ disclosed its extended validation SSL ("EV SSL") certificate lifecycle management business practices in its:
 - Certification Practice Statement; and
 - Certificate Policyincluding its commitment to provide EV SSL certificates in conformity with the CA/Browser Forum Guidelines on the ADS website, and provided such services in accordance with its disclosed practices
- ▶ maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and EV SSL certificates it manages is established and protected throughout their lifecycles; and
 - EV SSL subscriber information is properly authenticated (for the registration activities performed by ADS)
- ▶ maintained effective controls to provide reasonable assurance that:
 - requests for EV SSL Signing Authority and EV SSL Timestamp Authority certificates are properly authenticated; and
 - certificates issued to EV SSL Signing Authorities and EV SSL Timestamp Authorities are not valid for a period longer than specified by the CA/Browser Forum

in accordance with the WebTrust Principles and Criteria for Certification Authorities – Extended Validation SSL version 1.6.2.

Certification authority's responsibilities

ADS's management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust Principles and Criteria for Certification Authorities – Extended Validation SSL version 1.6.2.

Our independence and quality control

We have complied with the independence and other ethical requirements of the *Code of Ethics for Professional Accountants* issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The firm applies International Standard on Quality Control 1, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Auditor's responsibilities

Our responsibility is to express an opinion on management's assertion based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements 3000, *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's assertion is fairly stated, and, accordingly, included:

- (1) obtaining an understanding of ADS's EV SSL certificate lifecycle management business practices, including its relevant controls over the issuance, renewal, and revocation of EV SSL certificates, EV SSL Signing Authority certificates, and EV SSL Timestamp Authority certificates;
- (2) selectively testing transactions executed in accordance with disclosed EV SSL certificate lifecycle management practices;
- (3) testing and evaluating the operating effectiveness of the controls; and
- (4) performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Relative effectiveness of controls

The relative effectiveness and significance of specific controls at ADS and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

Inherent limitations

Because of the nature and inherent limitations of controls, ADS's ability to meet the aforementioned criteria may be affected. For example, controls may not prevent, or detect and correct, error, fraud, unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection of any conclusions based on our findings to future periods is subject to the risk that changes may alter the validity of such conclusions.

Opinion

In our opinion, throughout the period April 15, 2017 to March 26, 2018, ADS management's assertion, as referred to above, is fairly stated, in all material respects, in accordance with the [WebTrust Principles and Criteria for Certification Authorities – Extended Validation SSL version 1.6.2.](#)

This report does not include any representation as to the quality of ADS's services beyond those covered by the [WebTrust Principles and Criteria for Certification Authorities – Extended Validation SSL version 1.6.2.](#) nor the suitability of any of ADS's services for any customer's intended purpose.

Use of the WebTrust seal

ADS's use of the WebTrust for Certification Authorities – Extended Validation SSL Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

ADS MANAGEMENT'S ASSERTION

Asseco Data Systems S.A. ("ADS") operates the Certification Authority (CA) services known as CERTUM TRUSTED NETWORK CA, CERTUM TRUSTED NETWORK CA2, CERTUM Elliptic Curve CA, Certum Trusted Root CA, Certum EC-384 CA referenced in Appendix A, and provides Extended Validation SSL ("EV SSL") CA services.

The management of ADS is responsible for establishing and maintaining effective controls over its EV SSL CA operations, including its EV SSL business practices disclosure on its website, EV SSL key lifecycle management controls, EV SSL certificate lifecycle management controls, EV SSL Signing Authority and EV SSL Timestamp Authority certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to ADS's Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

ADS management has assessed its disclosures of its certificate practices and controls over its EV SSL CA services. Based on that assessment, in ADS management's opinion, in providing its EV SSL Certification Authority (CA) services at Szczecin, Poland, throughout the period April 15, 2017 to March 26, 2018, ADS has:

- disclosed its extended validation SSL ("EV SSL") certificate lifecycle management business practices in its:

- [Certification Practice Statement](#); and
- [Certificate Policy](#)

including its commitment to provide EV SSL certificates in conformity with the CA/Browser Forum Guidelines on the ADS website, and provided such services in accordance with its disclosed practices

- maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and EV SSL certificates it manages is established and protected throughout their lifecycles; and
 - EV SSL subscriber information is properly authenticated (for the registration activities performed by ADS)
- maintained effective controls to provide reasonable assurance that:
 - requests for EV SSL Signing Authority and EV SSL Timestamp Authority certificates are properly authenticated; and
 - certificates issued to EV SSL Signing Authorities and EV SSL Timestamp Authorities are not valid for a period longer than specified by the CA/Browser Forum
