**Report of Independent Accountant on Assessment of the Assertion by the management of Shanghai Electronic Certificate Authority Center Co., Ltd. (“SHECA”)**

To: Mr. Li Guo  
General Manager, Shanghai Electronic Certificate Authority Center Co., Ltd.

We have been engaged to perform a reasonable assurance engagement on the accompanying assertion by the management of Shanghai Electronic Certificate Authority Center Co., Ltd. (“SHECA”) for the period 1<sup>st</sup> May 2014 through 30<sup>th</sup> April 2015, for its Certification Authority (“CA”) - SSL Certificates operations, SHECA has:

- Disclosed its SSL certificate life cycle management policies and procedures, including its commitment to provide SSL certificates in conformity with the CA/Browser Forum Guidelines for SSL Baseline, and provided such services in accordance with its disclosed practices in its Certificate Practice Statement
- Maintained effective controls to provide reasonable assurance that:
  - SSL Subscriber information was properly collected, authenticated (for the registration activities performed by SHECA) and verified;
  - The integrity of keys and SSL certificates it manages was established and protected throughout their life cycles;
  - Logical and physical access to CA systems and data was restricted to authorized individuals;
  - The continuity of key and certificate management operations was maintained; and
  - CA systems development, maintenance and operations were properly authorized and performed to maintain CA system integrity.

in accordance with the CPA Canada WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security Version 2.0.

**Management’s Responsibility for the Management’s Assertion of SHECA**

SHECA’s management is responsible for the preparation and presentation of the management’s assertion in accordance with the WebTrust Principles and Criteria for Certification Authorities –SSL Baseline with Network Security Version 2.0. This responsibility includes designing, implementing and maintaining internal control

relevant to the preparation and presentation of the management's assertion of SHECA and applying an appropriate basis of preparation; and making estimates that are reasonable in the circumstances.

**Auditor's Responsibility**

It is our responsibility, to express a conclusion on the management's assertion of SHECA based on our work performed and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, for the management to submit to the related authority to obtain and display the WebTrust SSL Baseline Seal<sup>1</sup> on its website, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

The relative effectiveness and significance of specific controls at SHECA and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscribers and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscribers and relying party locations.

We conducted our work in accordance with the International Standard on Assurance Engagements 3000 "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information". This standard requires that we comply with ethical requirements, and plan and perform the assurance engagement to obtain reasonable assurance whether the management's assertion of SHECA complies, in all material respects, with the WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security Version 2.0.

A reasonable assurance engagement involves performing procedures to obtain sufficient appropriate evidence whether the management's assertion of SHECA complies with the WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security Version 2.0. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material noncompliance of the management's assertion of SHECA with the WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security Version 2.0. Within the scope of our work, we performed amongst others the following procedures: (1) obtaining an understanding of SHECA SSL certificate life cycle management practices and procedures, including its relevant controls over the issuance, renewal and revocation of SSL certificates; (2) selectively testing transactions executed in

---

<sup>1</sup> The maintenance and integrity of the SHECA website is the responsibility of the directors; the work carried out by the assurance provider does not involve consideration of these matters and, accordingly, the assurance provider accepts no responsibility for any differences between the accompanying assertion by the management of SHECA on which the assurance report was issued or the assurance report that was issued and the information presented on the website.

accordance with disclosed key and certificate life cycle management business and information privacy practices; (3) testing and evaluating the operating effectiveness of the controls; and (4) performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

**Inherent Limitation**

We draw attention to the fact that the WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security Version 2.0 includes certain inherent limitations that can influence the reliability of the information.

Because of inherent limitations in controls, errors or fraud may occur and not be detected. Furthermore, the projection of any conclusions, based on our findings, to future periods is subject to the risk that (1) changes made to the system or controls, (2) changes in processing requirements, (3) changes required because of the passage of time, or (4) degree of compliance with the policies or procedures may alter the validity of such conclusions.

**Conclusion**

In our opinion, the assertion by the management of SHECA for the period 1<sup>st</sup> May 2014 through 30<sup>th</sup> April 2015 complies, in all material respects, with the WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security Version 2.0.

**Emphasis of Matters**

Without modifying our conclusion, we draw attention to below matters:

SHECA's use of the WebTrust for Certification Authorities – SSL Baseline Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance. This report does not include any representation as to the quality of SHECA's certification services beyond those covered by the WebTrust Principles and Criteria for Certification Authorities – SSL Baseline with Network Security Version 2.0, or the suitability of any of SHECA's services for any customer's intended purpose.
