

# 2428821 - New Unified Rendering version for SAP GUI for HTML

Version	3	Typ	SAP-Hinweis
Sprache	Englisch	Originalsprache	Englisch
Priorität	Korrektur mit mittlerer Priorität	Kategorie	Programmfehler
Freigabestatus	Für Kunden freigegeben	Freigegeben am	07.04.2017
Komponente	BC-FES-ITS (SAP Internet Transaction Server)		

Please find the original document at <https://launchpad.support.sap.com/#/notes/2428821>

## Symptom

### New Unified Rendering version

Error corrections in the SAP GUI for HTML (also called WebGUI) require that you implement a new unified rendering library. Unified rendering (UR) is the HTML rendering technology on which SAP GUI for HTML is based. This technology is also used by other SAP frameworks, such as Web Dynpro.

For information about the errors that are corrected with this new library, read the SAP Notes that refer to this current SAP Note.

### SAP internal information for Support

-----

The following change lists are contained in the unified rendering version on which this SAP kernel patch is based:

722: Change list 266719

745: Change list 266719

## Lösung

To resolve this issue please do the following:

Determine the patch number of the SAPEXE SAR package with the highest patch number for your kernel version on the SAP Support Portal. If the SAPEXE patch number is higher than or equal to the highest patchlevel number you see in the section Support Packages & Patches of this SAP note for your SAP kernel version, you should download and install the SAPEXE SAR package. Otherwise, download and install the most recent DW.SAR archive.

Important: If there is no entry with the patch number yet, please re-check this SAP note at a later point in time. In this case the patch is not yet available for download and still in production or validation. The patch number will be added automatically once the corresponding patch is available on SAP Support Portal. You can subscribe to a SAP note to get informed when it is updated.

You can find up to date information about the status of the patch delivery in the following SAP notes:

SAP kernel 749: [2375349](#)

SAP kernel 745: [2199308](#)

SAP kernel 722: [2198998](#)

FAQ:

Expected delivery dates of SAP kernel patches

- SAP Kernel patches are usually delivered weekly or bi-weekly on Friday depending on the release. From the patchlevel of latest delivered patch you can roughly conclude when the patch you need will become available.

Downloading SAP Kernel patches

- All patches are available in the Software Downloads section on SAP Support Portal (<http://support.sap.com/patches>). Detailed information on the exact location of the patches can be taken from note [563161](#). SAP Note [330793](#) explains how to download patches from SAP Support Portal.

Installation of SAP kernel patches

- SAP note [19466](#) explains how install SAP Kernel patches.

## Softwarekomponenten

Softwarekomponente	Release
KRNL32NUC	7.22 - 7.22
KRNL32NUC	7.22EXT - 7.22EXT
KRNL32UC	7.22 - 7.22
KRNL32UC	7.22EXT - 7.22EXT
KRNL64NUC	7.22 - 7.22
KRNL64NUC	7.22EXT - 7.22EXT
KRNL64UC	7.22 - 7.22
KRNL64UC	7.22EXT - 7.22EXT
KERNEL	7.22 - 7.22
KERNEL	7.45 - 7.45

## Weitere Komponenten

Komponente	Beschreibung

## Support-Package-Patches

Software-Komponentenversion	Support Package	Patch-Level
SAP KERNEL 7.45 64-BIT UNICODE	SP417	000417
SAP KERNEL 7.45 64-BIT	SP417	000417
