Tests & Results

Shutdown Ping - Mid Nightly [EngQA] (x86, Windows 7 x86)

1. Test Cases (12)

ID	Title	Defects	Status
T122134	Verify Firefox is doesn't crash on shutdown or startup: Verify Fix:Bug -1356673		Passed
T122144	Verify Firefox is doesn't crash on shutdown or startup: Verify Fix:Bug 1357232		Passed
T125545	Verify no error is displayed when the browser shuts down- Windows only-Verify Fix of bug-1362024		Passed
T122135	Verify shutdown ping is not recieved by first session browser shutdown		Passed
T122136	Verify shutdown pings of different profiles have different contents, PingIds and URLs		Passed
T122137	Verify valid shutdown ping is sent by ping sender for private window		Passed
T122143	Verify valid shutdown ping is sent by ping sender for non-e10s window		Passed
T122138	Verify shutdown ping is correctly sent on the next Firefox restart if the server returned an error when sending using the PingSender		Passed
T122139	Verify shutdown ping is not sent when Telemetry data upload is disabled (i.e. datareporting.healthreport.uploadEnabled is false)		Passed
T122140	Verify no ping is sent when upload is enabled and no data choices bar is displayed (on a new profile)		Passed
T122141	Verify no ping is sent when an enabled upload is disabled before shutdown		Passed
T122142	Verify shutdown ping is received when the browser shuts down after an update		Passed

Shutdown Ping - Mid Nightly [EngQA] (x86, Windows 10 x64)

1. Test Cases (12)

ID	Title	Defects	Status
T122119	Verify Firefox is doesn't crash on shutdown or startup: Verify Fix:Bug -1356673		Passed
T122129	Verify Firefox is doesn't crash on shutdown or startup: Verify Fix:Bug 1357232		Passed
T125544	Verify no error is displayed when the browser shuts down- Windows only-Verify Fix of bug-1362024	1356673	Passed
T122120	Verify shutdown ping is not recieved by first session browser shutdown		Passed
T122121	Verify shutdown pings of different profiles have different contents, PingIds and URLs		Passed
T122122	Verify valid shutdown ping is sent by ping sender for private window		Passed
T122128	Verify valid shutdown ping is sent by ping sender for non-e10s window		Passed
T122123	Verify shutdown ping is correctly sent on the next Firefox restart if the server returned an error when sending using the PingSender		Passed
T122124	Verify shutdown ping is not sent when Telemetry data upload is disabled (i.e. datareporting.healthreport.uploadEnabled is false)		Passed
T122125	Verify no ping is sent when upload is enabled and no data choices bar is displayed (on a new profile)		Passed
T122126	Verify no ping is sent when an enabled upload is disabled before shutdown		Passed
T122127	Verify shutdown ping is received when the browser shuts down after an update		Passed

Shutdown Ping - Mid Nightly [EngQA] (x64, Windows 10 x64)

1. Test Cases (12)

ID	Title	Defects	Status
T122104	Verify Firefox is doesn't crash on shutdown or startup: Verify Fix:Bug -1356673		Passed
T122114	Verify Firefox is doesn't crash on shutdown or startup: Verify Fix:Bug 1357232		Passed
T125543	Verify no error is displayed when the browser shuts down- Windows only-Verify Fix of bug-1362024		Passed
T122105	Verify shutdown ping is not recieved by first session browser shutdown		Passed
T122106	Verify shutdown pings of different profiles have different contents, PingIds and URLs		Passed
T122107	Verify valid shutdown ping is sent by ping sender for private window		Passed
T122113	Verify valid shutdown ping is sent by ping sender for non-e10s window		Passed
T122108	Verify shutdown ping is correctly sent on the next Firefox restart if the server returned an error when sending using the PingSender		Passed
T122109	Verify shutdown ping is not sent when Telemetry data upload is disabled (i.e. datareporting.healthreport.uploadEnabled is false)		Passed
T122110	Verify no ping is sent when upload is enabled and no data choices bar is displayed (on a new profile)		Passed
T122111	Verify no ping is sent when an enabled upload is disabled before shutdown		Passed
T122112	Verify shutdown ping is received when the browser shuts down after an update		Passed

Shutdown Ping - Mid Nightly [EngQA] (x64, Ubuntu 16.04 x64)

1. Test Cases (11)

ID	Title	Defects	Status
T122089	Verify Firefox is doesn't crash on shutdown or startup: Verify Fix:Bug -1356673		Passed
T122099	Verify Firefox is doesn't crash on shutdown or startup: Verify Fix:Bug 1357232		Passed
T122090	Verify shutdown ping is not recieved by first session browser shutdown		Passed
T122091	Verify shutdown pings of different profiles have different contents, PingIds and URLs		Passed
T122092	Verify valid shutdown ping is sent by ping sender for private window		Passed
T122098	Verify valid shutdown ping is sent by ping sender for non-e10s window		Passed

T122093	Verify shutdown ping is correctly sent on the next Firefox restart if the server returned an error when sending using the PingSender	Passed
T122094	Verify shutdown ping is not sent when Telemetry data upload is disabled (i.e. datareporting.healthreport.uploadEnabled is false)	Passed
T122095	Verify no ping is sent when upload is enabled and no data choices bar is displayed (on a new profile)	Passed
T122096	Verify no ping is sent when an enabled upload is disabled before shutdown	Passed
T122097	Verify shutdown ping is received when the browser shuts down after an update	Blocked
