

# FIREFOX EXAMPLE

should be animated

This is firefox.  
the boxed items not working in seamonkey

should be animated and result in  
USERNAME/PASSWORD box

# SEAMONKEY PROBLEM.

All 3 of these boxes should be  
animated and the security  
professionals box should result  
in a pop-up USER/PASS box.

ClearStar - the 1st choice of professional Locksmiths & Safe-Technicians

Internet Explorer example with Credentials window displayed.

**Internet Explorer (I literally never use IE) displays animation and produces password box when the security professionals box is clicked.**
