Product description

Product Description

The Little Tikes Shopping Cart is made expressly for pint-size shoppers. Durable and colorful, this modern cart has sturdy walls to keep smaller items inside the deep basket. Fold down the seat to let a favorite toy or doll come along for the ride; the simple-to-push cart also features storage space under the basket and easy-rolling wheels. All items sold separately. Made in USA. 23Hx12-1/2Wx16-1/2D".

Amazon.com

Shopping for groceries with Mommy will seem more real than ever with this pintsize poultry and produce carrier. Though only about 2 feet high, the red-and-yellow cart is designed to resemble a grownup's cart. It even includes a fold-up space with leg holes near the cart's handle--Mommy usually sits baby there in a real cart--where tots can place a tiny doll. Bright blue plastic wheels add contrast and additional color to this cart, which will last as long as your child's toddler years. --*Diane Beall*

★★★★★ **Easy to assemble and sturdy**

Cute toy. Easy to assemble and sturdy. My 2 year old

This is a very sturdy little shopping cart. We keep various toys at our home for our two little grandchildren, so when they visit there are always toys to keep their imaginations enticed and for them to have fun with as well. This is one of the latest we've added and are so glad we did. First of all it needs some assembly but the directions were easy to follow and didn't take more than 10 to 15 minutes to assemble. I know this won't fall apart and will last for many years, then we can pass it along to someone else who can use it for their little ones. I can't stress enough how important it is to us that our grandchildren play with sturdy toys, especially at their age as our little granddaughter is just learning to walk. You'll see in one of my pictures a comparison to a different shopping cart.....and the one which is not Little Tikes we would not even be able to use for the purpose of assisting her in learning to walk. As a matter of fact it would be too dangerous just due to the weight and instability. This is a great toy for both the grandchildren as our 3 year old grandson likes loading it up with all the different toy food and even putting some of his other toys in the real basket seat in top (just like at the grocery store) to give them a ride. If you are looking for a long lasting sturdy toy shopping cart I wouldn't purchase any other.

★★★★★ **New favorite toy for our toddler!**

By [Ian M](#) on January 3, 2015

[Verified Purchase](#)

Our toddler was already a strong walker, but now she is tearing around the house with a basket full of toys like she's a finalist on Supermarket Sweeps.

The construction is good and the instructions were okay. We had a bit of a hassle putting the red axle caps on at first, but then I realized that we weren't using the plastic tool they provided to help make the job easier.

If you have little shoppers in your home, you won't go wrong with this. It certainly makes cleanup time easier if the kid can push this around and put toys in it.

I purchased this shopping cart for my 1 year old granddaughter for her birthday. She isn't walking alone yet, but I got a picture of her the other day standing and holding on to the cart. Her baby doll was sitting in the cart like the children do in a real shopping cart. I shipped it directly to my daughter's home and she tells me that it is really well made and was easy to put together. I have been very pleased with my purchase.

★★★★★ **It is a real hit and sturdy enough to last for years**

By [ineedapencil](#) on January 23, 2017

Purchases for my grandson to play with when he comes to visit figuring he would grow into it. He is only 1 but loves to push it, fill it with toys, turn it upside down and play with the wheels, you name it. It is a real hit and sturdy enough to last for years. I would like to see more toys like this and less electronics.

★★★★☆ **A nice shopping cart**

My two year old son is obsessed with pushing things around. He loves to push his stroller (rather than ride in it) and he loves to push the shopping carts in the grocery store, so we bought him this for Christmas. It was an immediate favorite. He loves to put his toys in it and push it around. It appears to be very durable, as he also enjoys tipping it over and climbing all over it. It is on the smaller side, but cute. My only complaint is with

granddaughter loves it!

the assembly. The wheels come in two parts, and you must snap them together. Good luck with that! LOL! I see no reason why Little Tikes cannot ship it already with the two wheel pieces together. It would make a lot more sense and make the assembly of this cart a cinch! Really, putting the wheels together was quite the joke. The one part was not even round, it was oval, and you had to try to bend it back to a round shape to get it to snap over the other very round part. Just insane. But, glad I got it for my son. He enjoys it very much. As for the wheel axels, the shopping cart came with a gadget (we didn't realize it was there at first) which helps keep the wheel steady, while you attach the wheel. When we discovered this little gadget, and used that, it was simple to get the wheels on the axel. I only wish that snapping the two pieces of the wheels together were that simple!

★★★★★ **My Kid Loves It!**

By [JP](#) on January 22, 2016

[Verified Purchase](#)

My kid freakin' loves this thing! For that reason alone it's getting 5-stars from me. It's sturdy, the wheels roll nicely, and he hasn't tired of playing with it yet.

I might have given 4 stars for the assembly instructions though... the basket attaches with screws but, rather than a tradition hole to screw into, you have to screw into a slot/trough type thing. It hung me up for a few moments looking for a screw-hole. I'm a handy type of guy so I figured it out but it might confuse the less mechanically inclined customer.

★★★★★ **Worth The Money!**

By [Tiffany Graves](#) on January 17, 2017

[Verified Purchase](#)

I bought this shopping cart for my two year old brother for Christmas and he absolutely loves it! He plays with it everyday, loading and unloading the cart for hours. The cart itself is very durable and easy to maneuver. The basket is surprising deep and the holes on the side are small enough to where nothing will fall out. The only downfall is that it came unassembled but, it does come with easy-to-follow instructions so it didn't take too long to put the whole thing together. Overall, I'm very happy with my purchase and I think it's worth every penny.

2 year old granddaughter loves this. We bought play food so sometimes she uses it for her groceries, other days it is a way to transport other toys around the house. This is a wonderful toy for Grandma's house.
