For instance:

<https://bug1495965.bmoattachments.org/attachment.cgi?id=9013900>

will timeout.

Mojo super powers time.

I connected to one of the web-workers, and do this:

```
perl bugzilla.pl get 'https://bug1495965.bmoattachments.org/attachment.cgi?id=90139
```

the output below:
