

- Hanning window
- Hamming window
- Blackman window
- Kaiser window: alpha =

### Varying the shape of the Kaiser window

Try experimenting with different values for  $\alpha$ .  
The values listed opposite are of particular interest.

$\alpha$	Window shape
0	Rectangular
5	Similar to the Hamming window
6	Similar to the Hanning window
8.6	Almost identical to the Blackman window
