[A Rotting, Dead Chicken](#)

Well, look at it this way: You cannot keep a dog that kills chickens, no matter how fine a dog it is otherwise.

My friend John Henry Faulk always said the way to break a dog of that habit is to take one of the chickens the dog has killed and wire the thing around the dog's neck, good and strong. And leave it there until that dead chicken stinks so bad the dog won't be able to stand himself. You leave it on there until the last little bit of flesh rots and falls off, and that dog won't kill chickens again.

The Bush Administration is going to be wired around the neck of the American people for four more years, long enough for the stench to sicken everybody. It should cure the country of electing Republicans.

Debt & Taxes

Lowered taxes instead of lowering debt

- The enormous US Debt is about to double during Bush's term.
- Paying off the debt would have immediately reduced taxes!
- Bush's actions violate the first principle of financial responsibility, which is to pay off your debt!
- In an unprecedented historic move, Clinton and Gore had halted the rise of US debt. Bush caused the debt to soar again.
- The increased debt wipes out the measly tax gain.

- Definitions:
 - [debt](#): what the USA owes.
 - [deficit](#): current expenses minus revenue (If you recall your calculus, it is the derivative of the debt.)
- google: [Lowered taxes instead of lowering debt](#)
- [Live Within Your Financial Means](#). You do this by paying down your debt.
- [Pay Down The Debt](#): we should have stopped the tax rebate in 2001.
- The debt curves below show what happened. By 2000 Clinton and Gore had STOPPED THE INCREASE in the Debt. Bush got into office in 2000 and the very next year the debt took off. It is still rising. Click on the images for a larger view

1996 to 2004: TRILLIONS of DOLLARS in DEBT!

The above data are from [The Bureau of the Public Debt, United States Department of the Treasury, The Debt to the Penny and Who Holds It](#). (Click on the image for a larger view.)

The following graph is the same as the one above except that it shows the full debt size and a longer time scale going back to 1950. It shows a rising debt for both administrations. But if you look closely (click on the image for a larger view) Clinton's rises AND ALMOST COMES TO A STOP! They had a plan in place and it was working! Then Bush takes over and the curve SHOOTs UP immediately.

1950 to 2010: TRILLIONS of DOLLARS in DEBT!

Total US Debt (\$ trillions), 1950 to 2010.

The above data are from [The Bureau of the Public Debt, United States Department of the Treasury, Historical Debt Outstanding - Annual 1950 - 2000](#) combined with the recent data that is plotted in the first graph. (Click on the image for a larger view.) (The [data](#) were plotted with [xyplo](#).)

Interpretation: Clinton got a legacy of rising debt in 1993 and stopped the rise by 2000. Bush got a legacy of flat debt from Clinton and shot the debt up by 2004. Clinton's plan was on track to clear the debt by 2012! Bush has almost completely ruined what Clinton built!

- google [population of the united states of america](#) gives

[CIA - The World Factbook -- United States:](#)

"293,027,571 (July 2004 est.)".

- SO ... divide the total debt by the number of people in the United states and we find that **YOUR PART OF THE US DEBT IS \$24,785.17.**
- [The Bureau of the Public Debt, United States Department of the Treasury](#) gives this information: from 09/28/2001 to 07/08/2004 (current) the debt increased from 5,807,463,412,200.06 to 7,262,737,835,501.71 or by \$1455274423301.65. That's $\$1.46 \times 10^{12} = \1.46 trillion. **The US Debt increased by \$1.46 trillion while Bush was in office.**
- If we use the increase in the debt since Bush took office we find that **every person in the USA is in debt by AN ADDITIONAL \$4966.34 because of Bush's fiscal policy.** That \$300 gift you got from George does not cover the amount you owe! Can you please pay that off tomorrow? [How do you make a contribution to reduce the debt?](#)
- The [House Budget Committee Democratic Caucus](#) gives the same number as above for your part of the debt, (except that it is more recent). On September 16 they give \$24,990.35. The page gives lots of dire budget information.

"Approximately 64 percent of the \$8.6 trillion deterioration in the budget outlook is due to policy decisions over the last four years to cut taxes repeatedly while paying huge bills for the war in Iraq and spending large sums in other areas, such as homeland security and international affairs. United States Mass Layoff Statistics

Mass Layoff Statistics: Between 4/95 and 4/04 mass layoffs have a seasonal cycle.

In addition, there is a near doubling jump in 2001.

The initial peak is before the election, but Bush didn't help the situation.

To reproduce the graph:

1. Go to U.S. Department of Labor, Bureau of Labor Statistics, U.S. Economy at a Glance:

These are all variations of the same text. Each has advantages. **The PDF is generally the best format for printing.** The BushKerryDoorHanger versions have small font and do not use the page space well. The PDF will print ok but it is hard to read. The dbk versions are html based. They use the page space well and so are easy to read in print but all browsers add head and foot information and there seems to be no control to remove these on my machine.

If it is different from the one on this web page, then this web page has been changed somehow - even by a single character. If your version number matches the web page, and there is no [construction symbol](#) at the top, you have exactly the latest version. If the [construction symbol](#) is at the top of the page, then I'm working on it at this very moment. You can wait until it goes away for a stable version.

This page was written entirely with my personal resources on my own time. No governmental funds, equipment, space, time, matter or electrons were used. Although I am a government employee, speaking out about candidates is allowed under the [Hatch Act](#). On page 4 of the [Pdf booklet](#): "Permitted and Prohibited Activities for Employees Who May Engage in Partisan Activity ... May express opinions about candidates and issues". "Expressing opinions about candidates and issues in private and in public (even when done in a concerted way to elicit support for a candidate or party)." [is permitted](#). This page is paid for by Thomas Schneider and not authorized by any candidate.
