

# Velocity UI for Eclipse

This project leverages the [Eclipse platform](#) (v2.x) by adding support for the template/scripting engine [Velocity](#).

It provides the following plugins:

## **org.apache.velocity**

Velocity binaries (currently v1.3.1-rc2) packaged as an Eclipse plugin

## **org.vaulttec.velocity.ui**

Velocity-aware text editor (associated to files with extensions '\*.vsl' or '\*.vm') with outline view
