

Step 1 - search for your bug

Please see if your bug has already been reported. **Please don't skip this step.** 50% of the bugs filed in Bugzilla are duplicates, and this wastes a lot of our QA engineers' time.

Check the list of most-frequently-reported bugs below. If your bug isn't there, search Bugzilla by entering two or three of the main words having to do with your bug in this box. For example: **pop3 mail** or **copy paste**.

id	count	priority	category	severity	platform	version	description
159552	19	0	Page Layout	major	MacOS		
171077	10	0	Page Layout	major	MacOS
