

# TECH ALERT: ANCHORED VENEER WITH BRICK TIES - AN OUT OF SIGHT PROBLEM!

June 6, 2016 in Tech Alert

categories

PRESS RELEASE **TECH ALERT**

---

**By: Remi Kern** - Field Consultant - Level 4

Anchored brick veneer is a popular residential and commercial cladding type currently utilized throughout the vast majority of the United States, particularly in the states located within the Midwest, South, and Atlantic seaboard.

The air cavity maintained between the brick and the exterior wall assists in
