

# Errata

Find author book corrections here. You might also like to check the corrections that Prentice Hall maintains; but this list is as up-to-date as any.

Corrections to code listings in this page of errata have also been put in the downloadable files that contain the book's NoteTaker example project, except for Seth's modifications to Chapter 16, which await the next major update. Those modifications are documented and/or linked to here if you want them.

## Rapid Application Development with Mozilla

Thanks to these people for corrections so far: Brendan Boulter, Simon White, the eagle-eyed Seth Dillingham, whose remarks are less brief than these here, Robert P. Goldman, Bill Dimm, gulliver, Chris de Vidal, John Leach, Stephan Ring, Jan Frederik Solem, Mark Hughes, Roy Wagner and others.
