

```
<html><head><meta http-equiv="content-type" content="text/html; charset=UTF-8"><title>Mozilla Firefox Kezdőoldal</title><style>
body,td,a,p,.h{font-family:arial,sans-serif;}
body {font-size: small;color: #333;margin: 0 20px 2em 20px;line-height: 140%;background: #fff url(/images/firefox/grgrad.gif) r
</style><script type="text/javascript"><!--
function sf() {document.f.q.focus();}
// -->
</script></head><body onload="sf()"><center><form action="/search name=f"><table id=frame cellpadding=0 cellspacing=0 border=0><t
function qs(el) {if (window.RegExp && window.encodeURIComponent) {var qs=encodeURIComponent(document.f.q.value);if (el.href.ind
// -->
</script><table border=0 cellspacing=0 cellpadding=4><tr><td nowrap><font size=-1><h>Web</h><nbsp;<nbsp;<nbsp;<nbsp;<a id=1a cl
```

The cursor after “q.focus();}”
I push the Home key. As you see, the cursor is moved to first line of source.

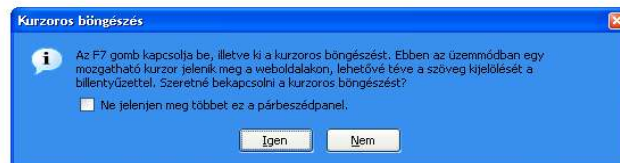

```
<html><head><meta http-equiv="content-type" content="text/html; charset=UTF-8"><title>Mozilla Firefox Kezdőoldal</title><style>
body,td,a,p,.h{font-family:arial,sans-serif;}
body {font-size: small;color: #333;margin: 0 20px 2em 20px;line-height: 140%;background: #fff url(/images/firefox/grgrad.gif) r
</style><script type="text/javascript"><!--
function sf() {document.f.q.focus();}
// -->
</script></head><body onload="sf()"><center><form action="/search name=f"><table id=frame cellpadding=0 cellspacing=0 border=0><t
function qs(el) {if (window.RegExp && window.encodeURIComponent) {var qs=encodeURIComponent(document.f.q.value);if (el.href.ind
// -->
</script><table border=0 cellspacing=0 cellpadding=4><tr><td nowrap><font size=-1><h>Web</h><nbsp;<nbsp;<nbsp;<nbsp;<a id=1a cl
```

Then I enabled the caret mode:

```
view-source: - Oldal forrása: http://www.google.co.hu/firefox?client=firefox-a&rls=org.mozilla.hu-HU:official - Mozilla Firefox
Fájl Szerkesztés Nézet
<html><head><meta http-equiv="content-type" content="text/html; charset=UTF-8"><title>Mozilla Firefox Kezdőoldal</title><style>
body,td,a,p,.h{font-family:arial,sans-serif;}
body {font-size: small;color: #333;margin: 0 20px 2em 20px;line-height: 140%;background: #fff url(/images/firefox/grgrad.gif) r
</style><script type="text/javascript"><!--
function sf() {document.f.q.focus();}
// -->
</script></head><body onload="sf()"><center><form action="/search name=f"><table id=frame cellpadding=0 cellspacing=0 border=0><t
function qs(el) {if (window.RegExp && window.encodeURIComponent) {var qe=encodeURIComponent(document.f.q.value);if (el.href.ind
// -->
</script><table border=0 cellspacing=0 cellpadding=4><tr><td nowrap><font size=-1><b>Web</b><nbsp;<nbsp;<nbsp;<nbsp;<a id=1a cl
```

And push the End key. The source viewer is move cursor to end of document, not the end of line:

```
view-source: - Oldal forrása: http://www.google.co.hu/firefox?client=firefox-a&rls=org.mozilla.hu-HU:official - Mozilla Firefox
Fájl Szerkesztés Nézet

td><td></td></tr></table></td></tr></table></form></center></body></html>
```
