Stay in Sync with Your Firefox

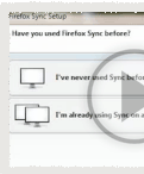

Access your history, passwords, bookmarks and even open tabs across all your devices.

**Get Firefox Sync**  
Free Download  
Add-on for Firefox 3.5 and 3.6

**Get Sync for Your Mobile Device**  
by [Firefox Home](#) for the iPhone.  
by [Sync](#) for Firefox Mobile.

**[Ipsum Dolor]**  
Sync is a built-in feature in Firefox 4 for desktop and mobile. Click download, restart Firefox and you will be prompted to create a Firefox Sync account.  

**[Sit A nsecetur]**  
On Firefox 4 beta for desktop, go to **Tool > Sync > Connect** and add your new login info. On Firefox for mobile, swipe to your **Tools > Preferences** and pan down to add your new login info and tap on Connect.

**Need Help?**  
Watch this short ins follow these [step-by-](#)  

### Why S Up?

#### Get Up and Go

Looking at driving directions or reservation times on your desktop but need to leave in a hurry? Just get up and go and have your history and open tabs waiting for you on your mobile phone. Or, stop your work and pick up where you left off on your home computer.

#### Never Start From Scratch

Get a new computer or phone, but always have your Firefox. Don't worry about resetting passwords or retying long and painful URLs that you've already visited. Firefox Sync saves your bookmarks, passwords and form data so you can hit the ground running at your desk or on the go.

#### Security

Your information is encrypted so only you can access it when you enter your Sync Key. Firefox puts security as a top priority and syncing is no exception.

#### Using Firefox 3.5

Firefox Sync is not a of Firefox 3.5 or 3.6. Firefox Sync account [Firefox Sync add-on](#) machine, restart Fin the steps above to cr Sync account.
