CoolPreviews

Preview links and sub search in an image pane. Create temporary visual bookmarks right in your browser.

COOL PREVIEWS

by cooliris™

Replace current text with:
If you're not already using Firefox, first get started with the browser. Then choose Add-ons for a customized experience. [BUTTON]:
Download Firefox
<http://www.mozilla.com/products/download.html?product=firefox-3.6.13&os=win&lang=en-US>

New side module 1 replaces current text.

Visit the Add-ons Gallery

Subscribe to our feed

View collections

Remove the "view [month] collections" link

Change "Recently Featured Add-ons" to "Previous Add-ons"

New side module 2 would replace "Visit the Add-ons Gallery: [Read more about Rock Your Firefox and Add-ons](#) or [browse all existing Add-ons](#). The first text would link to the content currently on the "Learn About Tab". The second text would link to AMO

New side module 3:
Read or hear this page in your language with the IM Translator Add-on.
<http://rockyourfirefox.com/2010/08/imtranslator/>

search engine

After installing, you'll see the CoolPreviews Icon in the bottom right of your browser. Set preferences and enable/disable the add-on globally, or for specific sites:

Start out with a normal search, but instead of clicking through, mouse over the CoolPreviews icon and see the site as an inset:
