# General information about the CA's associated organization

| | |
|---|---|
| CA Company Name | EADTrust |
| Website URL | http://www.eadtrust.net/ |
| Organizational type | Private Corporation |
| Customer Base | EADTrust is focused to any customers that need trusting services, including digital certificates |
| Impact to Mozilla Users | EADTrust enhance the security concept by using dual security, which means that certificates are issued using RSA and ECC. Certificates are paired using extensions, so that, if one of both technologies is broken security is still reliable due to the dual feature. |
