

## Review of Firefox for Android RTL V2

Version: fennec-47.0a2.fa.android-arm

Test Language: Persian (Fa)

### Main Meue (Priority 1)

Incorrect (Current)	Correct
 <p>The screenshot shows a menu with items: 'زبانۀ جدید', 'زبانۀ خصوصی جدید', 'پیدا کردن در صفحه', 'درخواست وبسایت دسکتاپ', 'صفحه &gt;', 'ابزارها &gt;', 'کدگذاری نویسه‌ها', 'تنظیمات', and 'راهنما'. The top icons (star, menu, share) are on the left. Red arrows point from the top icons to the left, and from the right side of the menu items to the left. A red box highlights the right side of the 'درخواست وبسایت دسکتاپ' item.</p>	 <p>The screenshot shows the same menu with items: 'زبانۀ جدید', 'زبانۀ خصوصی جدید', 'پیدا کردن در صفحه', 'درخواست وبسایت دسکتاپ', 'صفحه &lt;', 'ابزارها &lt;', 'کدگذاری نویسه‌ها', 'تنظیمات', and 'راهنما'. The top icons (share, menu, star) are on the right. Red arrows point from the top icons to the right, and from the left side of the menu items to the right.</p>
<ul style="list-style-type: none"><li>* Icons should move to the left</li><li>* Arrows should be mirrored</li><li>* Fast shortcut icons on top should be mirrored</li></ul>	

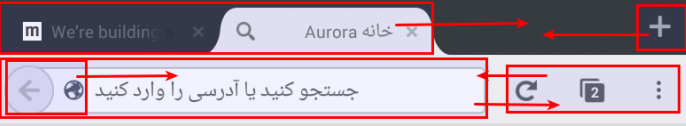

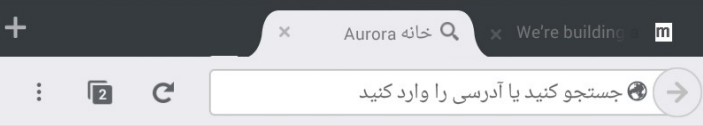

## Settings Main Page (Priority 1)

Incorrect (Current)	Correct
<p>* Arrow icon on top should be mirrored</p> <p>* Text should go to the other side (Like main menu)</p>	

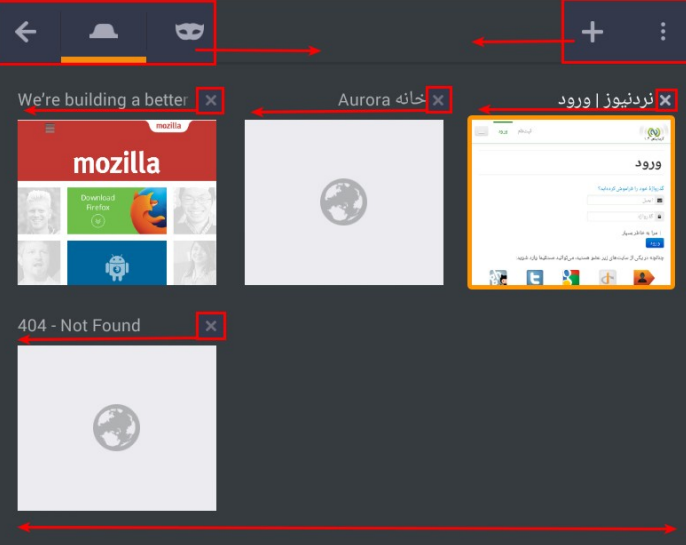

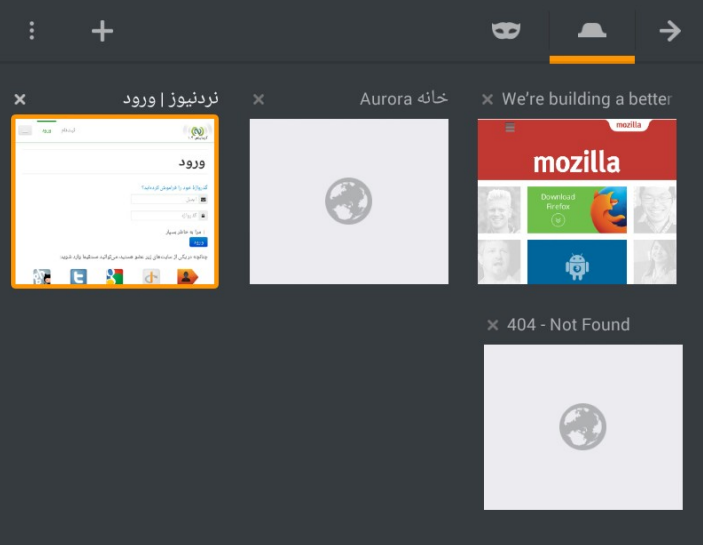

## Settings Pages (Priority 1)

Incorrect (Current)	Correct
<p>* Groups heading texts positions are correct but other menu options should be moved to the other side</p> <p>* Arrow Icon should be mirrored. Check box doesn't need to be mirrored but both need to move to other side</p>	

## Tabs and address bar (Priority 2)

Incorrect (Current)	Correct
 <ul style="list-style-type: none"><li>* Tabs should start from the other side</li><li>* Address bar should move to the other side</li><li>* buttons should also move to the other side</li></ul>	 <ul style="list-style-type: none"><li>* It would be awesome if address bar could be bidirectional (like tabs title). While generally most of website addresses are English I prefer them to be LTR and aligned to left while the placeholder should be RTL and aligned to right.</li></ul>

## Tab index page (Priority 2)

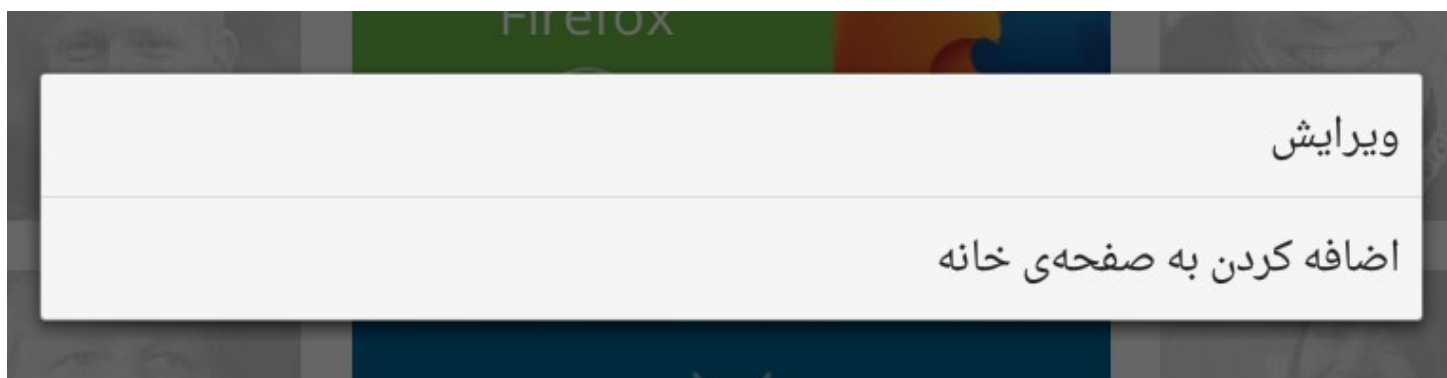

Incorrect (Current)	Correct
 <ul style="list-style-type: none"><li>* Index should start from the other side</li><li>* Buttons should be reversed</li><li>* Arrow button should get mirrored</li><li>* Close buttons should be moved to other side</li></ul>	

## Things that are already correct

### Notifications looks correct

### Popup menus looks correct (without icons)

### Tab list titles

The titles seems to be nicely bidirectional. The English title is LTR and aligned to left while the Persian titles are RTL and aligned to right.
