

## **Enable IDN display for .cpб**

At the session held on 21 April, the Board of Directors of ICANN (Internet Corporation for Assigned Names and Numbers) supported the request to delegate the management of the Cyrillic domain .cpб to RNIDS.

The Cyrillic Internet domain .cpб is the new, second country code top-level domain of the Republic of Serbia. It is part of the internationalised domain name (IDN) family, i.e. of domain names which are not written using the English alphabet.
