I have a free app that comes with in-app payment. How do I set it up?
My app is going to be made free temporarily, but it will be sold for a price at some point. How do I set it up?

Hosted

Submit your app manifest URL

   http://   Validate ▶

Manifest URLs must start with a protocol (for example, `http://` or `https://`) and typically use the `.webapp` extension.

Learn more about **app manifests** on MDN.
