```

Please perform the following steps.

1. Open Help -> Troubleshooting Information
2. Click the Show Folder button next to Profile Folder
3. In the directory that was opened, open the prefs.js file in a text editor
4. Copy all entries that start with user_pref("app.update
5. Paste these entries into this bug
6. Go up one directory from the directory that was opened
7. Add the names of the directories in this location

Here is the info requested in your note:

1. Open Help -> Troubleshooting Information
2. Click the Show Folder button next to Profile Folder
3. In the directory that was opened, open the prefs.js file in a text editor

4. Copy all entries that start with user_pref("app.update

[It seems like I have a number of duplicates somehow for these files. I looked at the timestamp and most of the "files-Copy" were made on 11-27-2012 at 11:26 or 11:27 AM].

[Also, most of the ones with no "**-Copy**" were from varying dates and times from 6-2011 thru 11-27]
