Phase 2 Updates

* copy is FPO

A. Sign In

For R2, the ability to sign in with BrowserID (Persona) exists. Submitting or 'liking' a video will also initiate the sign-in flow.

B. Link to 2013 Submissions Gallery (1 of 2)

Once the 2013 gallery is populated with X number of videos, we will replace the Judges link. Until then, we will display a link to the judges section within this page.

C. Submit Your Flick

When submissions are open, we will add the ability to submit a Flick. The button must look more prominent than the other 2 links as it is not just a link to content, but the primary action we are leading the user to on this page.

* note change in order of the 3 promo links.

D. Promo Videos

New Flicks promo videos created by Mozilla will be displayed here. These videos are not user generated and are therefore kept separate from the 2012 winners.

Visual design notes: It should be apparent that there are multiple videos. When selecting the video, a lightbox will appear that allows the user to view the first video and toggle through to others.

* must check with devs to see if toggling through videos functionality can be added to video lightbox.

E. Helpful Links

The following links are materials that are valuable to a user who wants to submit a Flick.

* copy update should reflect addition of new links

F. Link to 2013 Submissions Gallery (2 of 2)
