Steps to Reproduce Contact Corruption
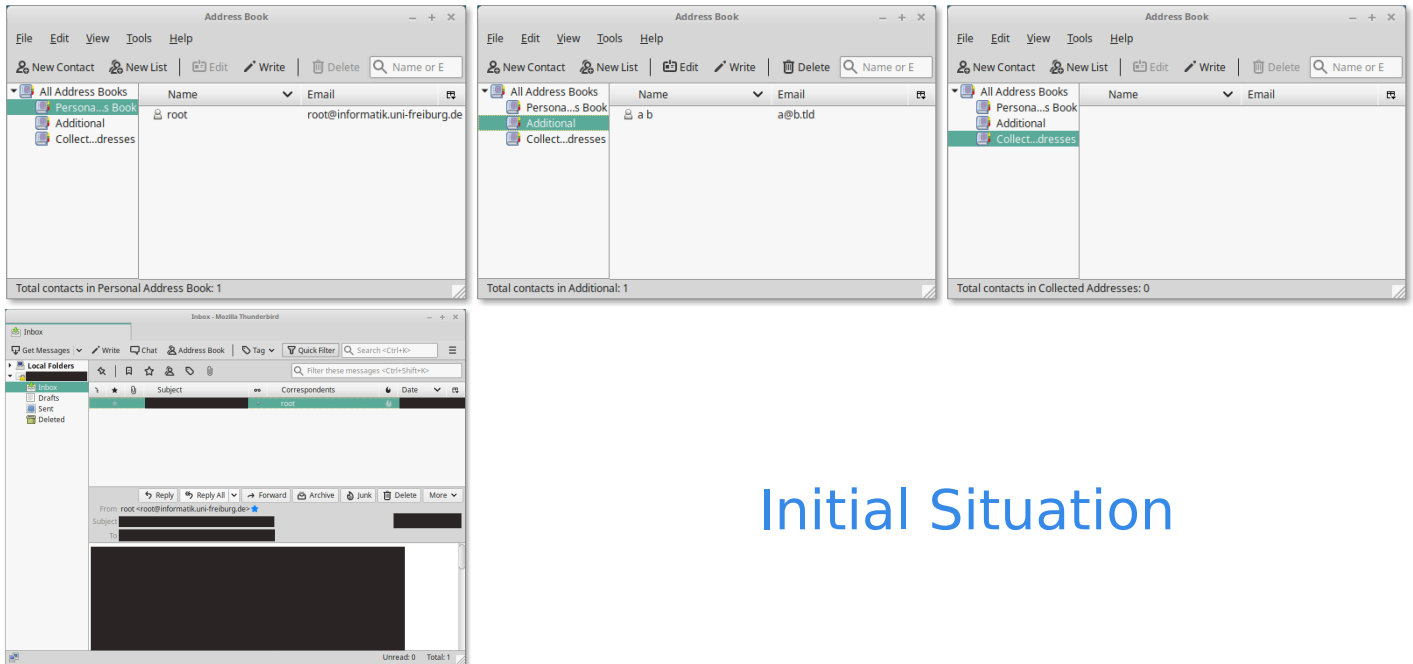

Create a new profile.
Add an account with at least one e-mail.
Add the author of the e-mail to the standard address book by clicking on the start next to it.
Create an additional address book.
Add a contact to the new address book.

Initial Situation

In the e-mail, click the star next to the author ...
... change the address book to the newly created address book

Reproduce

The changed contact is copied (not moved) to the new address book.
One contact from the target address book is overwritten.
Fields of the overwritten contact not present in the changed contact remain unchanged.

Outcome
