And users like you:

- ♥ Kevin: "Great study tool. This is a really nice app on both Chrome and Android. Works flawlessly at what it does, very nice clean interface. I love the mass card creator. Oh, and the fact that both Chrome and Android versions have the same features

needed. Allows me to quiz myself on my cards, keeping track of which ones I don't know. I then am given the option to study just the cards I don't know. For me this is perfection."

♥ Nicky: "Love it! Helped me so much with my exams, and lets you look at the ones you don't know. Really useful!"

♥ Tilia: "I have tried several flashcard apps and had assumed I was relegated to the old fashioned paper kind before I discovered Cabra... Thank you!"

♥ Ken, teacher: "It's a wonderful program and I highly recommend it to my students."
