# Learn

Welcome to Firefox OS 101, here you will find comprehensive information about the features and functions of Firefox OS and Firefox Marketplace. You'll also find the roadmaps and localization support available today, and architecture and security overviews for these products.

## Firefox OS

Firefox OS is actually a combination of the Open Source project called Boot to Gecko (B2G) with the branding from Mozilla. Together, we have created an experience we call Firefox OS.

High Level Overview	Click here for a high level overview of feature and functions in Firefox OS. This overview is designed to education end users about what Firefox OS can do, and what makes it great. <a href="#">Read more &gt;&gt;</a>
Detailed Feature list for Firefox OS	Version 1.2 complete feature list (current version)  <a href="#">Read more &gt;&gt;</a>
	Version 1.1 complete feature list  <a href="#">Read more &gt;&gt;</a>
	Version 1.0 complete feature list  <a href="#">Read more &gt;&gt;</a>
Architecture Overview	Overview of how Firefox OS (B2G) is architected  <a href="#">Read more &gt;&gt;</a>
Security Overview	Overview of the security model avialble in Firefox OS (B2G)  <a href="#">Read more &gt;&gt;</a>
Firefox OS Roadmap	Behind Firefox OS, is the Boot-to-Gecko (B2G) project, an open source mobile platform. Here you will find the roadmap for B2G, which in turn, becomes the featureset for Firefox OS.  <a href="#">Read more &gt;&gt;</a>
Firefox OS Localization Roadmap	Here you'll find details about what languages are supported in Firefox OS/B2G.  <a href="#">Read more &gt;&gt;</a>
How to contribute to Firefox OS and B2G	Don't see a feature you need, or looking to add a language we don't support today? You should consider contributing back to the Open Source project behind Firefox OS.  <a href="#">Read more &gt;&gt;</a>

## Firefox Marketplace

Firefox Markeplace is a store of applications made avaiable on Firefox OS devices. The software and tools behind Firefox Marketplace are open and available for anyone to run. Firefox Marketplace itself is owned and operated by Mozilla, and is an option for those wishing to include a robust application download experience.

High Level Overview	Click here for a high level overview of feature and functions in Firefox Marketplace. This overview is designed to education end users about what Firefox Markeplace offers, and what makes it great.  <a href="#">Read more &gt;&gt;</a>
Detailed Features and Roadmap	Here you will find details on our Marketplace roadmap, localization support, payment integration, and customization  <a href="#">Read more &gt;&gt;</a>
App Review Process	Find out about how we review applications submitted to Firefox Marketplace  <a href="#">Read more &gt;&gt;</a>
App Submission Process	Learn more about how to submit your own application to Firefox Markeplace  <a href="#">Read more &gt;&gt;</a>
How to contibute to Marketplace	Would like to see a feature in Marketplace that doesn't exist already? Find out how to code it yourself and give back to the Open Source project.  <a href="#">Read more &gt;&gt;</a>

## In Market Devices

We are launching devices globally. Check out what other OEM's are currently offering.
