To the Certification Authority staff and Management of Swisscom (Schweiz) AG

Dear Mr. Augstburger

We have performed the procedures enumerated below, which were agreed to by the Managements of Client, solely to assist you in evaluating the company's application for an Extended Validation (EV) Certificate. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.

KPMG has executed a surveillance certification audit in year 2015 and a surveillance certification audit in year 2016 against the mandatory standardizations listed in the following section (specified information/procedure/results).

The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Specified Information: Procedure:

KPMG has completed the Certification Audit Process in accordance with the CSP Standards ZertES, VZertES, TAV (SR 943.032.1 PKI standards for Switzerland), ETSI TS 101.456, ETSI TS 101.862 and ETSI TS 102.042, ETSI TS 101.861 (PKI standards for Europe), CAB/Forum Baseline and CAB/Forum EV Guideline with ETS EN 319.403 and referenced PKI standards for the PKI Trust Center of Swisscom (Schweiz) AG.

Results:

KPMG herewith confirms that the CSP audit certification process (SR 943.032.1 and ETSI TS 102.042 with EV requirements) also covers all aspects of a Web-Trust certification and is therefore fit to be included in web browser root certificate stores. See further information about the scope of the certification on the webpage SECO-SAS (Berne, Switzerland): http://www.seco.admin.ch/sas/PKI.
