

Table with two Euro signs, different font

TNR	Officina
€	€

Screen shot from how the table shows on my system

The screenshot shows the same table as above, but it is enclosed in a thick orange border. The text 'Table with two Euro signs, different font' is visible at the top of the screenshot, and 'Screen shot from how the table shows on my system' is visible at the bottom. The table itself contains the same data: 'TNR' and 'Officina' in the first row, and '€' and '€' in the second row.
