

Instructions:

In the bugged_document.doc try the following (after you uncheck **Format/ Sections/ Write Protection**) :

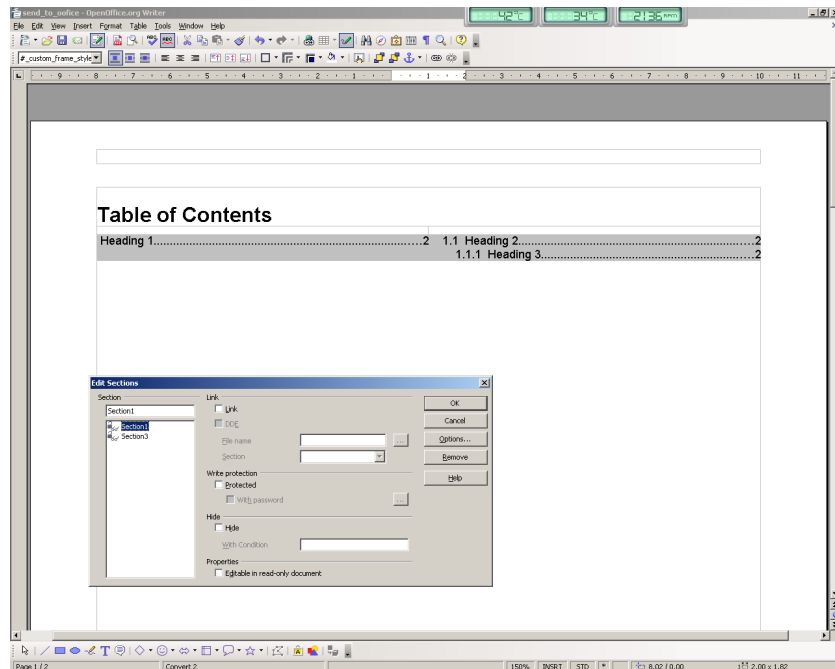

1.1 *Format the Table of Contents on two columns*

1.2 *Create a custom frame style:*

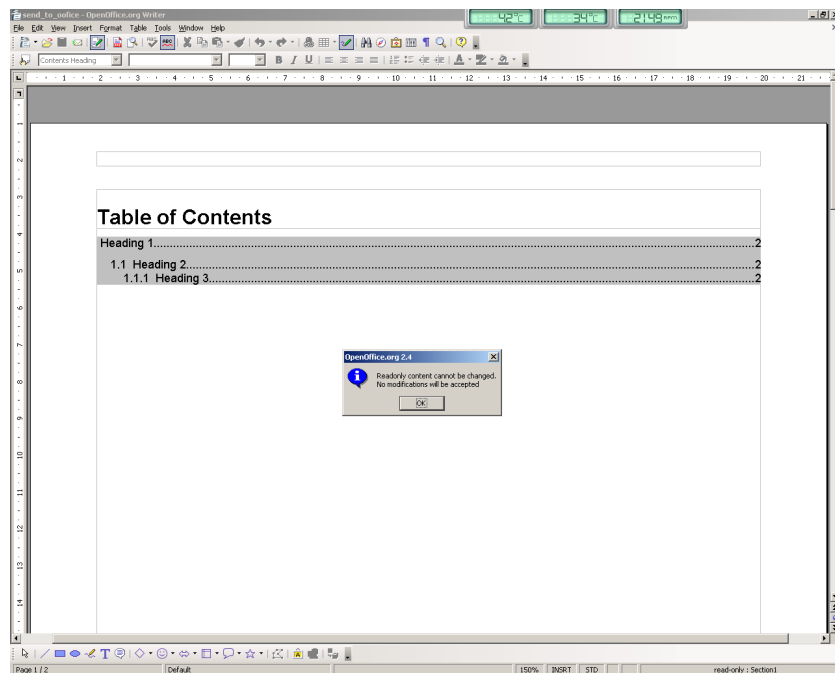

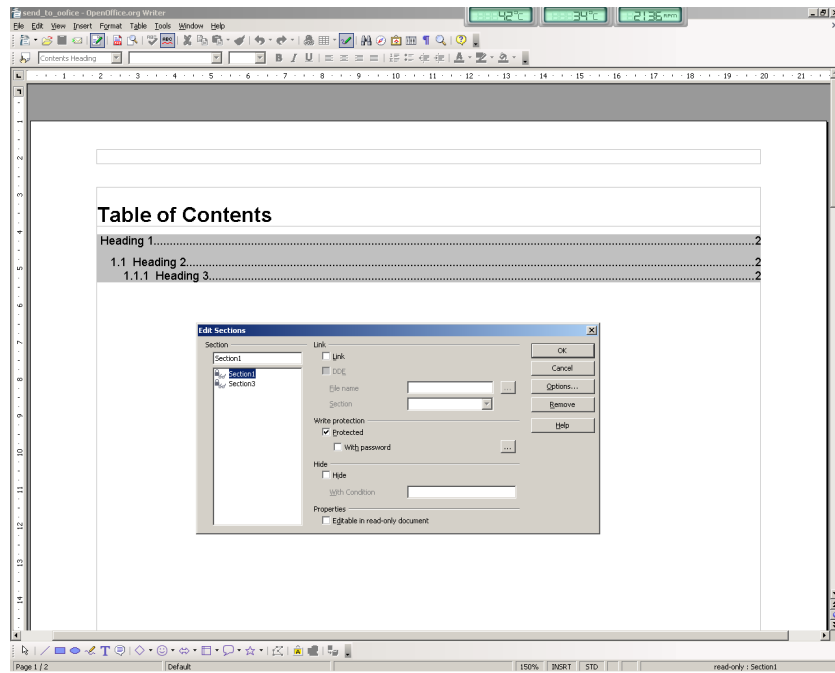

1.3 Verify again in the Format / Sections that the sections are unprotected for editing:

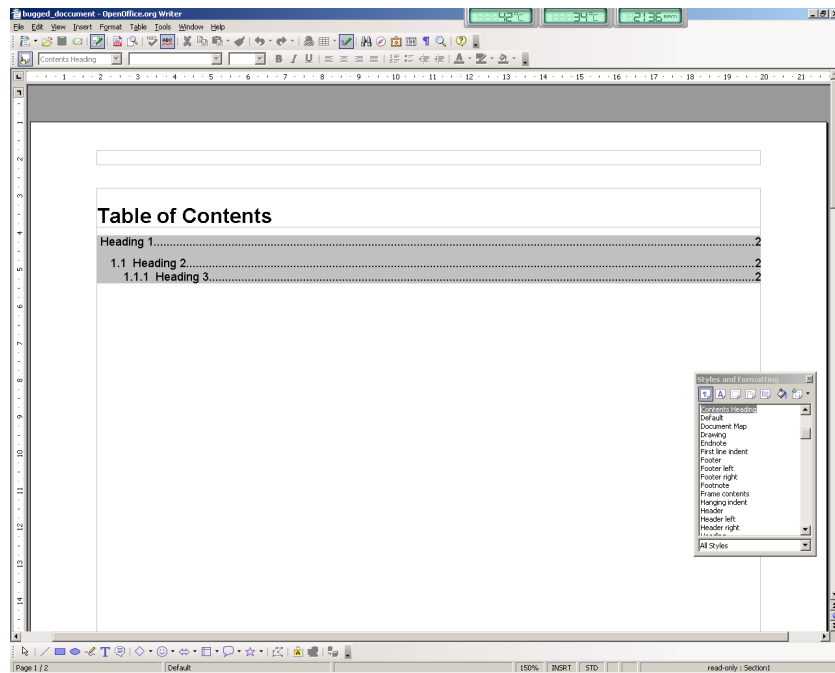

1.4 Save the bugged_document.doc document, close and the open it again

1.5 The contents are protected, although you did not check this option:

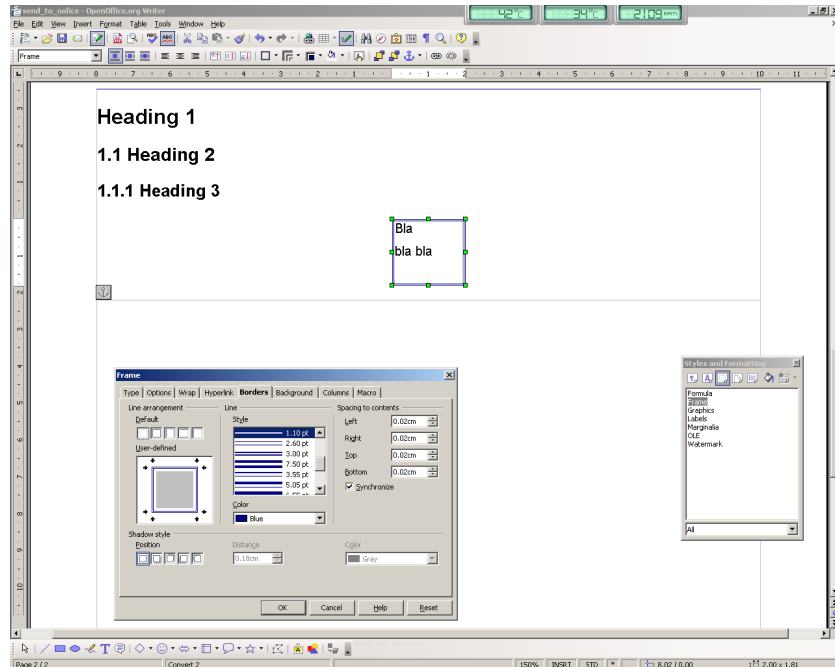

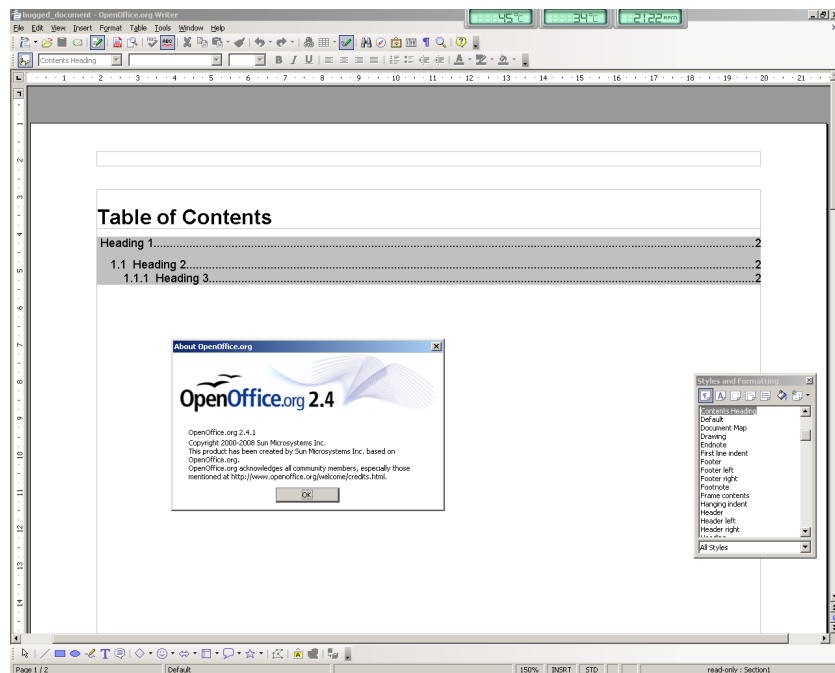

1.6 The Table of Contents has lost the two-column setting you chose earlier:

1.7 The custom frame style is nowhere to be found:

1.8 The current version of the program:

(the file has been edited with several previous versions of OpenOffice, possibly even Microsoft Office)
