Protecting Fram	ies.	Graphics.	and	OLE	Obiec	ts	

 You can protect the content, position and size of inserted graphics. The same applies to rames (in Writer) and OLE objects.

 Turning on protection
 For example, for graphics inserted in Writer: Choose Format - Graphics - Options tab. Under Protect, mark Contents, Position and/or Size.

 Turning off protection
 For example, for graphics inserted in Writer: Choose Format - Graphics - Options tab. Under Protect, unmark as appropriate.

Protecting Drawing Objects and Form Objects

 The draw objects that you insert into your documents with the Drawing toolbar can be protected from being accidentally moved or changed in size. You can do the same with form objects inserted with the Form Controls toolbar.

 Turning on protection
 Choose Format - Drawing Object - Position and Size - Position and Size tab. Mark the Position or Size check box.

 Turning off protection
 Choose Format - Drawing Object - Position and Size - Position and Size tab. Unmark the Position or Size check box.
