Refer also to the lists of shortcut keys for OOo-dev Calc and OOo-dev in general.

Some of the shortcut keys may be assigned to your desktop system. Keys that are assigned to the desktop system are not available to OOo-dev. Try to assign different keys either for OOo-dev, in **Tools - Customize - Keyboard**, or in your desktop system.

Cell Selection Mode

 Icon

In a text box that has a button to minimize the dialog, press **F2** to enter the cell selection mod Select any number of cells, then press **F2** again to show the dialog.

In the cell selection mode, you can use the common navigation keys to select cells.

Controlling the Outline

You can use the keyboard in Outline:

- Press **F6** or **Shift+F6** until the vertical or horizontal outline window has the focus
