Help

Insert a page break and set it to Default style

Note it, I set the style to "Default"

Welcome to OpenOffice.org

Create a new document

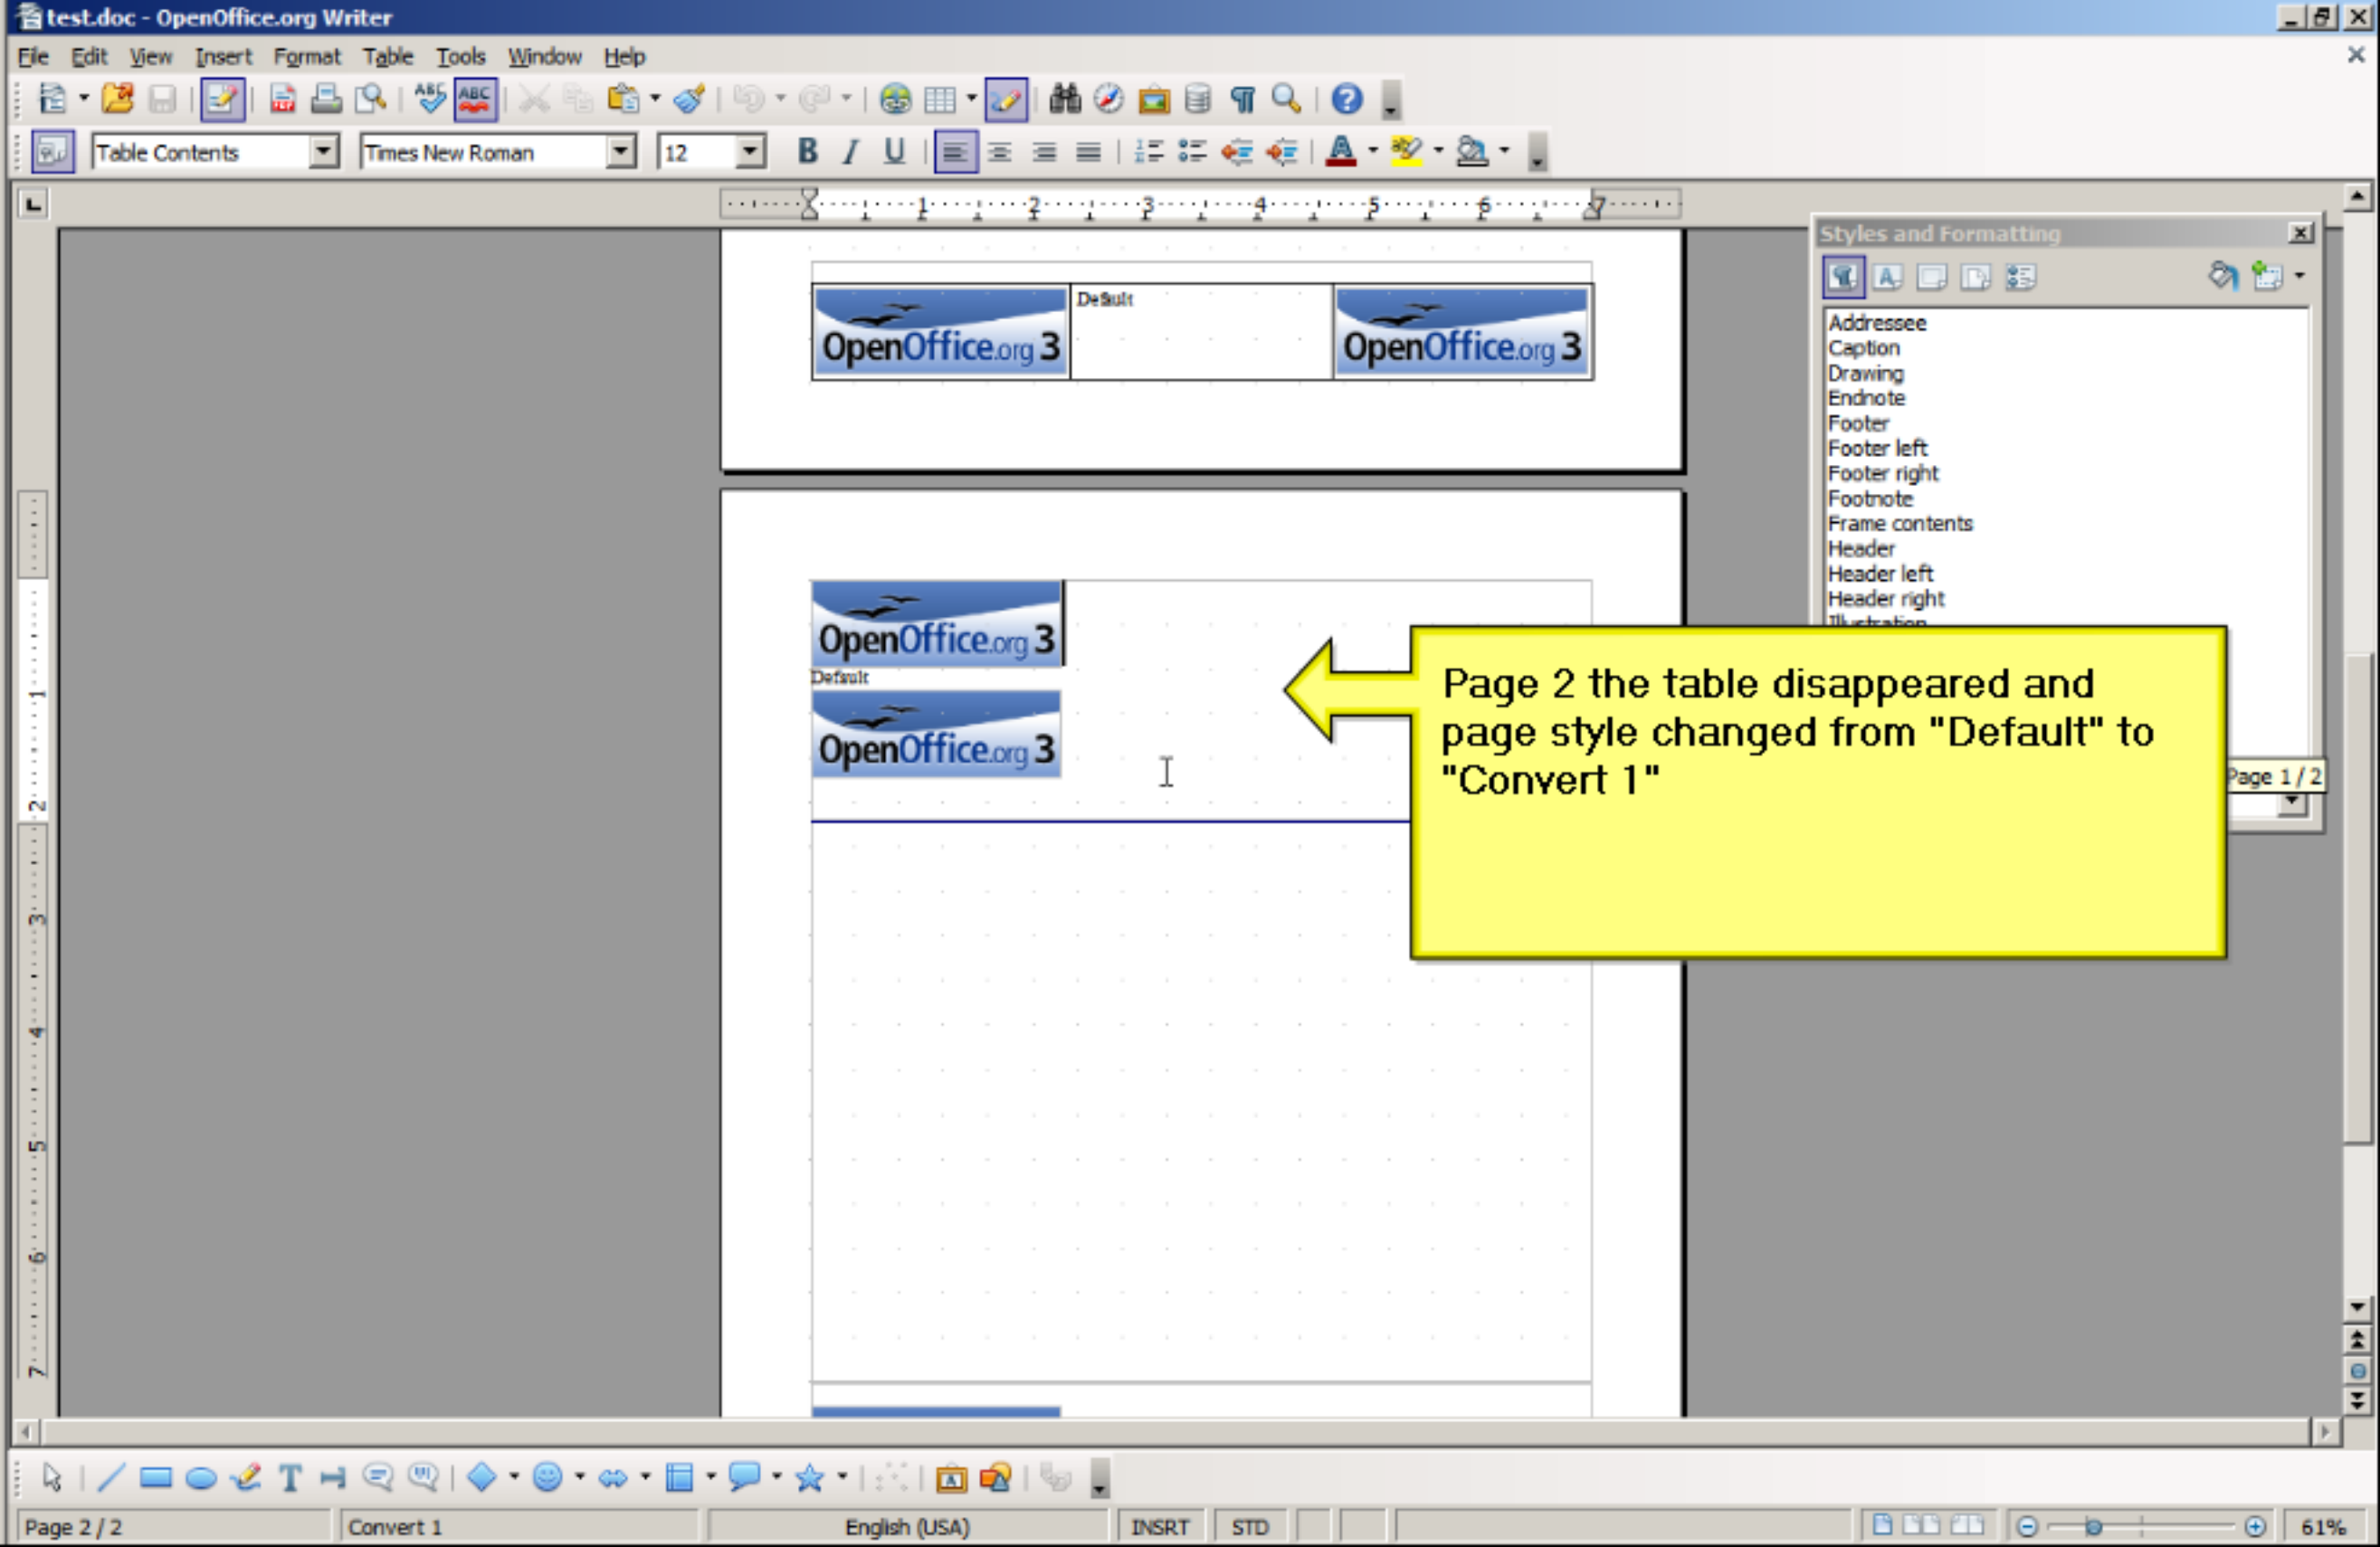

-  Text Document
-  Spreadsheet
-  Presentation
-  Drawing
-  Database
-  Formula
-  Templates...
-  Open a document...

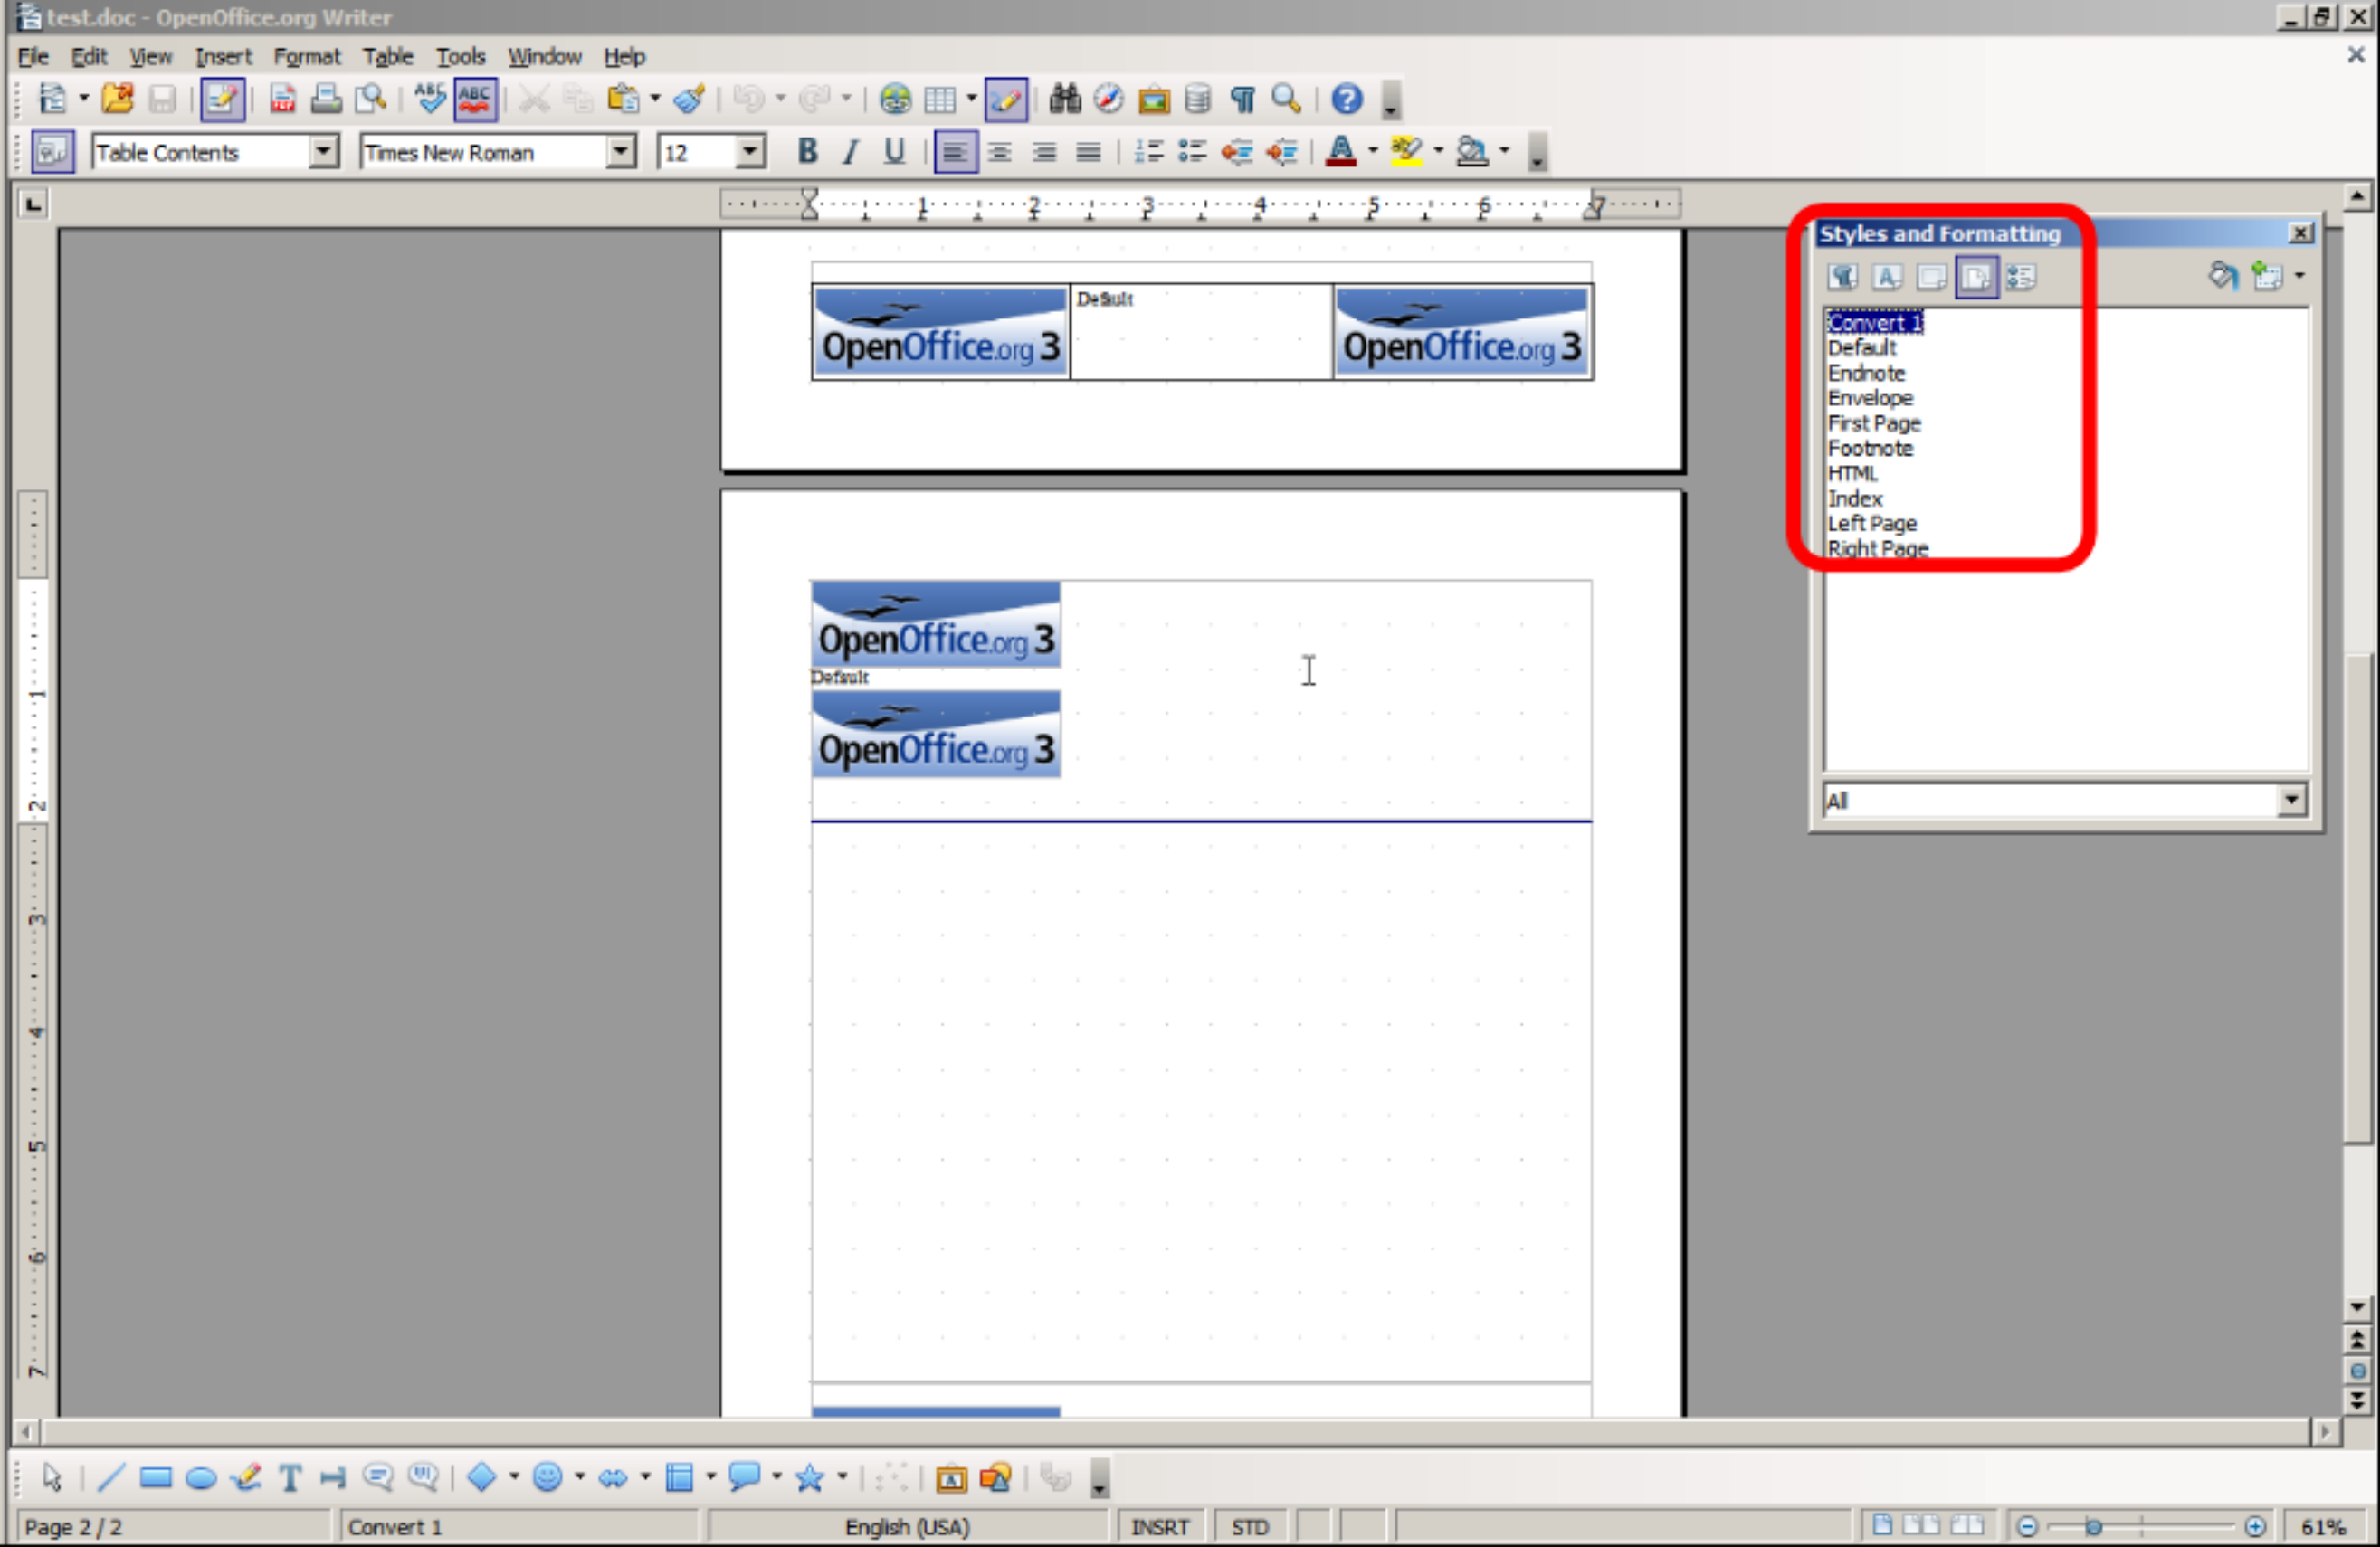

Then close it into Word format and re-open it

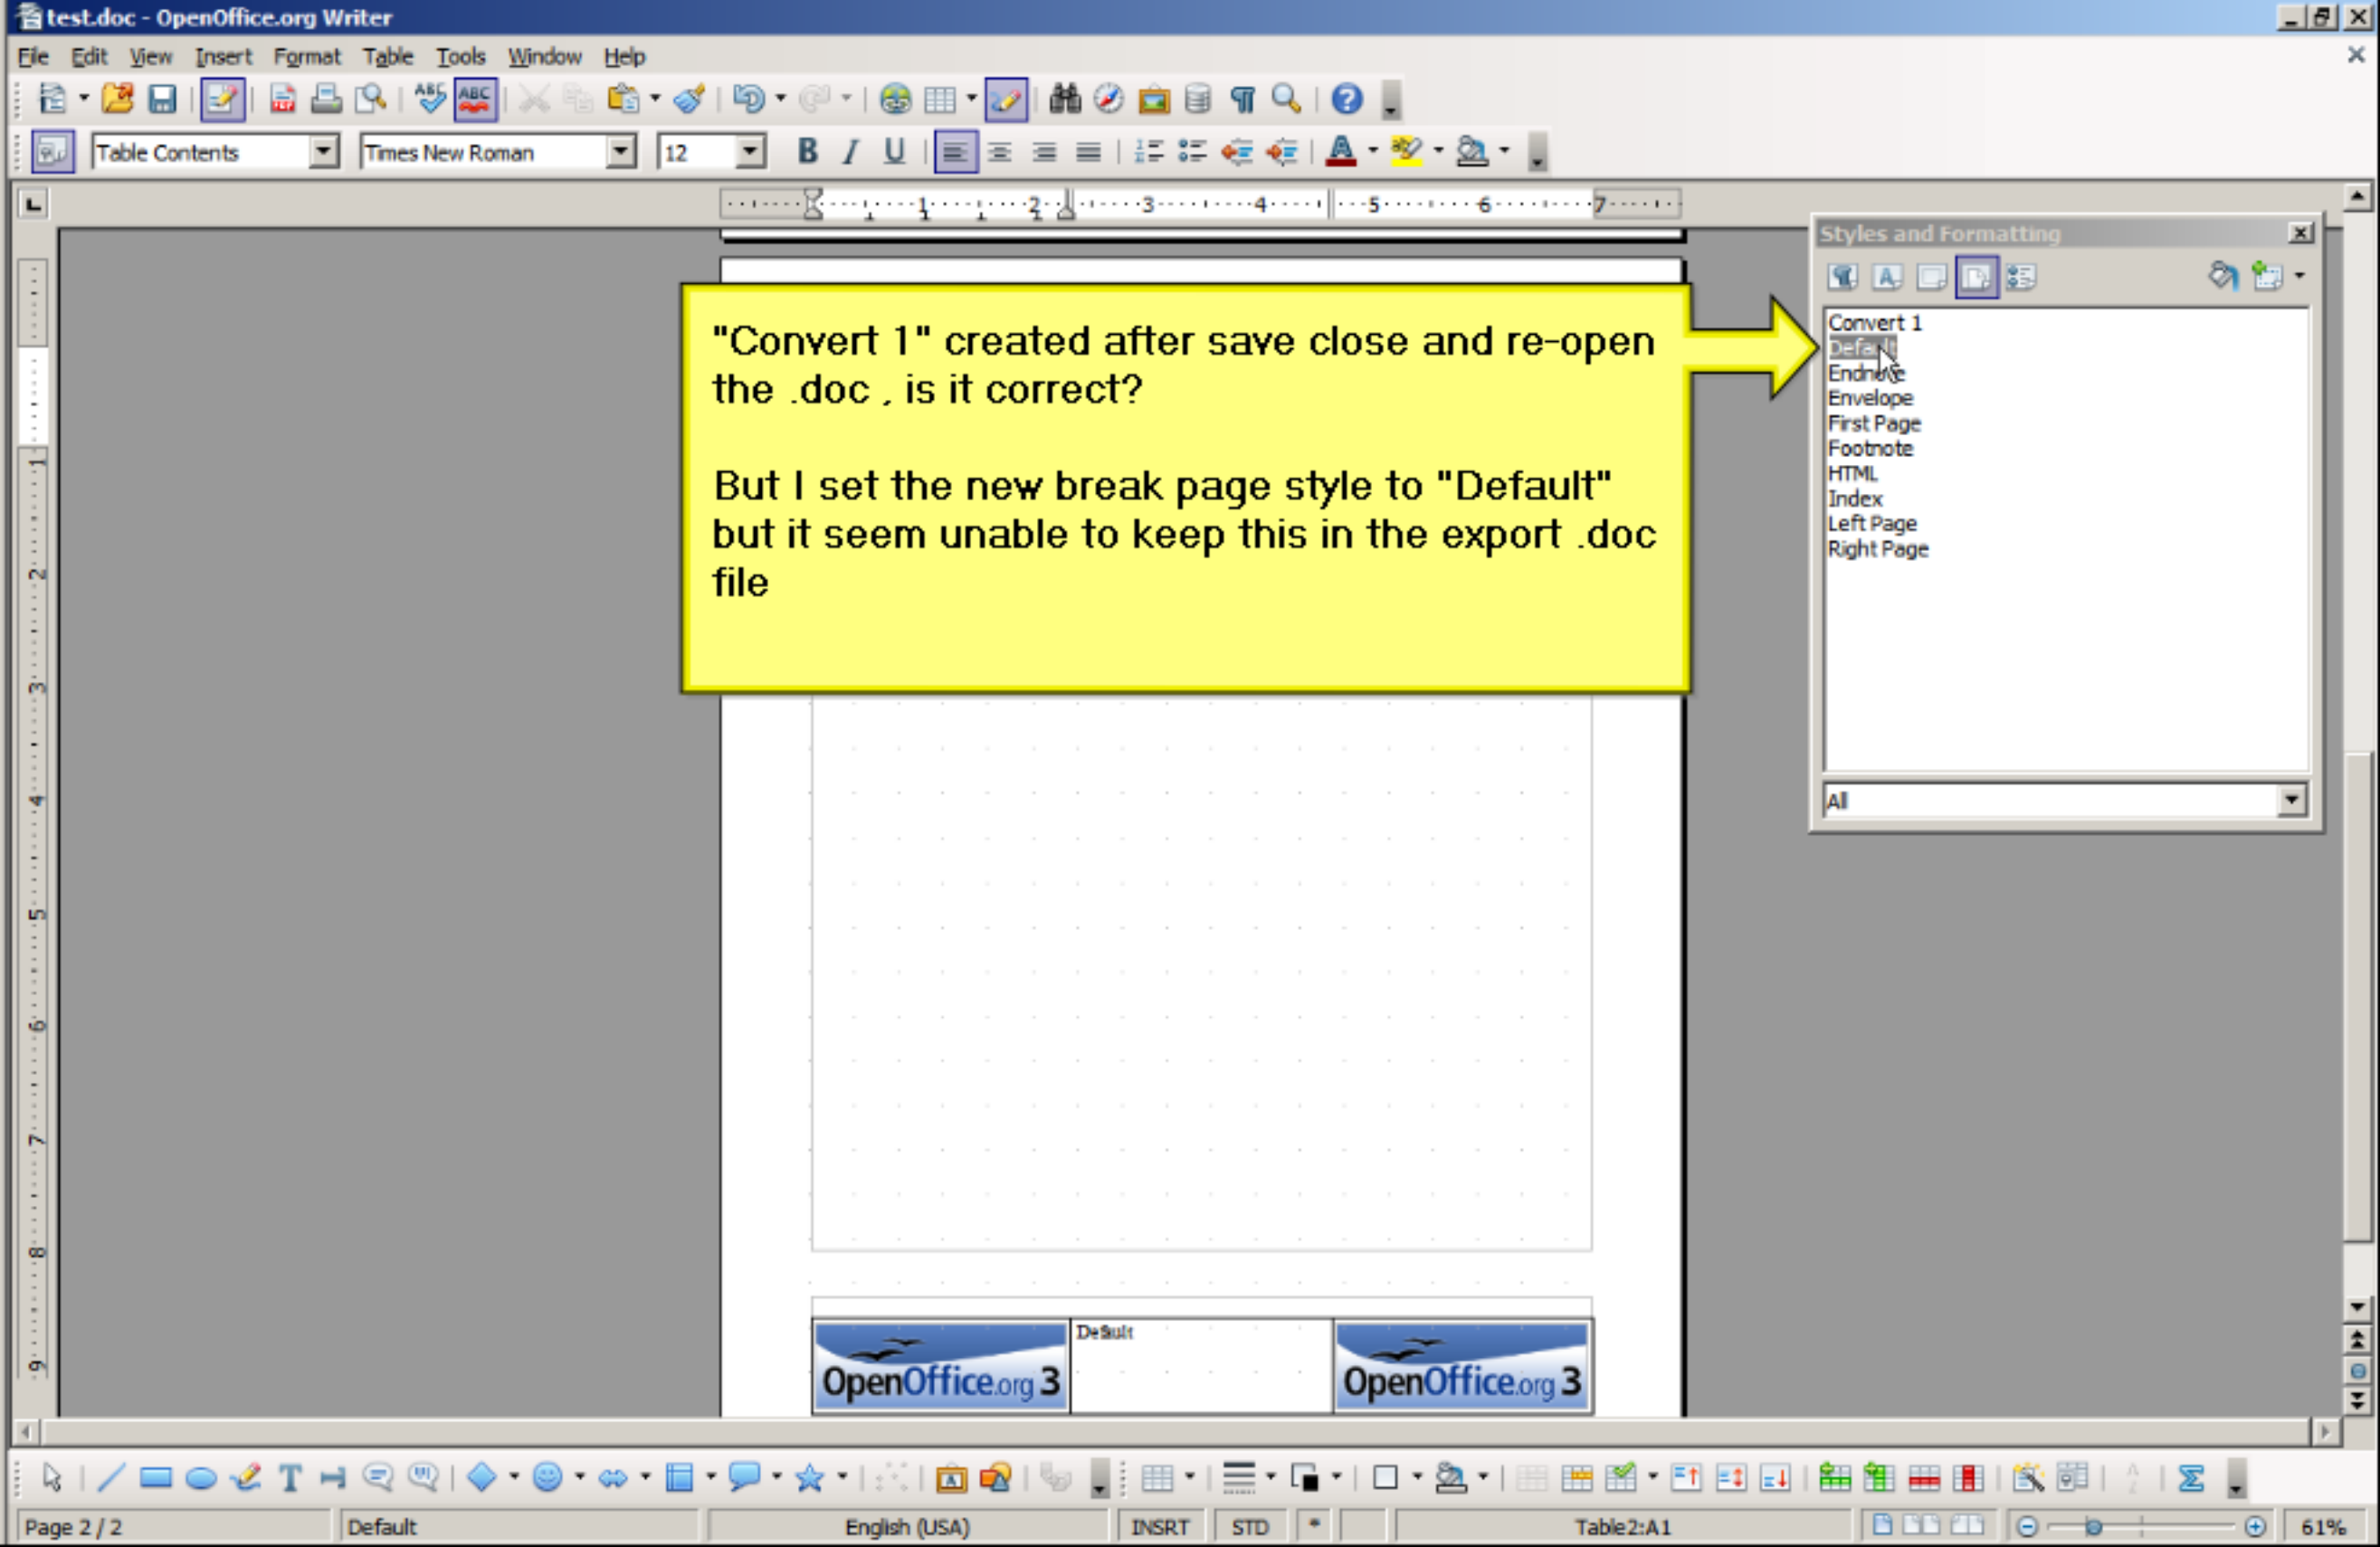

Page 1 no problem

Page 2 the table disappeared and page style changed from "Default" to "Convert 1"

"Convert 1" created after save close and re-open the .doc , is it correct?

But I set the new break page style to "Default" but it seem unable to keep this in the export .doc file
