 - J2EE [JSP, Servlet], HTML, JQuery, Ajax
 - Servlet MVC, Spring JDBC Template, Spring Integration, Apache Maven, Spring restful, Spring Batch 1.x, JAXB - WS, Junit
 - Liferay Portal(Secondary).
 - Eclipse , IBM RSA , IBM Web Sphere , Apache Web Server, Putty
 - Design Pattern – Singleton Pattern, Factory Pattern
-

ACADEMIC EXPERIENCE

Projects:

- **Hybrid intrusion detection with weighed signature generation over anomalous internet episode.**

This project is mainly reducing the burden of manual process for maintaining the customer details. The customers who have registered on the website will receive all information about the offers through SMS and also using the SMS the customer can know entire detail about the desired product through their queries. This system has the facility to send Birthday wishes through SMS to the customers who have registered on website and also the system send new arrivals of clothing items to its registered customers. ASP.NET 2.0, MS-SQL Server 2000.

ADDITIONAL EXPERIENCE AND AWARDS

- Have taken 2 Associate of Month award in my project, one for suggesting client an idea and implementing it and another for completing a project in short period of time with stringent timeline.
- Have developed POC in my Project on Apache camel integration framework.
- Have gone through Angular js training.

STRENGTHS, HOBBIES& INTERESTS

- Good analytical and Technical skills
- Commitment to work, Hardworking
- Fast Learner
- Watching Cricket
- Gaming.
